UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

International General Certificate of Secondary Education

MARK SCHEME for the May/June 2006 question paper

0452 ACCOUNTING

0452/03

Paper 3, maximum raw mark 100

These mark schemes are published as an aid to teachers and students, to indicate the requirements of the examination. They show the basis on which Examiners were initially instructed to award marks. They do not indicate the details of the discussions that took place at an Examiners' meeting before marking began. Any substantial changes to the mark scheme that arose from these discussions will be recorded in the published *Report on the Examination*.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the Report on the Examination.

The minimum marks in these components needed for various grades were previously published with these mark schemes, but are now instead included in the Report on the Examination for this session.

• CIE will not enter into discussion or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the May/June 2006 question papers for most IGCSE and GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

[10]

(b) (i) Matching OR Prudence

[1]

(ii) Matching

To ensure that the amount of sales for the year which are unlikely to be paid are treated as an expense of that particular year.

OR

Prudence

To ensure that the profit is not overstated and that the asset of debtors in the Balance Sheet shows a more realistic amount. [2]

- (c) (i) The \$80 transferred to the Profit and Loss Account is the difference between the provision for doubtful debts at the start of the year and the provision required to carry forward to next year. In this case it is the amount of surplus provision not required. (2)
 - (ii) This amount will be credited to the Profit and Loss Account. (1)
- (d) Collection period for debtors -

$$\frac{7\ 190}{83\ 500}$$
 x $\frac{365}{1}$ (1) = 31.43 days = 32 days (1)

[2]

[3]

(e) Ways of improving the collection period for debtors

Offer cash discount for prompt payment

Charge interest on overdue accounts

Improve credit control

Refuse further supplies on credit until any outstanding balance is paid

Or other relevant points

[3]
