UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

International General Certificate of Secondary Education

MARK SCHEME for the June 2005 question paper

0610 BIOLOGY

0610/06

Paper 6 (Alternative to Practical), maximum mark 40

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which Examiners were initially instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began. Any substantial changes to the mark scheme that arose from these discussions will be recorded in the published *Report on the Examination*.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the *Report on the Examination*.

 CIE will not enter into discussion or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the June 2005 question papers for most IGCSE and GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Grade threshol	ds for Syllabus	s 0610 (Biolog	y) in the June	2005 examin	ation.	ambridge.
	maximum	mir	nimum mark re	equired for gra	ade:	Sec. 1
	mark available	А	С	E	F	OH
Component 6	40	28	19	13	10	

The threshold (minimum mark) for B is set halfway between those for Grades A and C. The threshold (minimum mark) for D is set halfway between those for Grades C and E. The threshold (minimum mark) for G is set as many marks below the F threshold as the E threshold is above it.

Grade A* does not exist at the level of an individual component.

June 2005

IGCSE

MARK SCHEME

MAXIMUM MARK: 40

SYLLABUS/COMPONENT: 0610/06

BIOLOGY
Paper 6 (Alternative to Practical)

Page 1	Mark Scheme	Syllabu	
	IGCSE – June 2005	0610	

1 (a) (i) Completion of table

				www.xtrapa	pers.com		
	Mark Sch	Syllabi	.0				
	IGCSE – June 2005			2			
Mark Scheme IGCSE – June 2005 Completion of table tissue volume of oxygen collected from sample/cm³ samples							
used		samp	les				
	Α	В	С	D			
potato	4.5	6.5	0	0			
liver	8.0	10.0	0	0	7		

Correct values only. Ignore units in table. One mark per row;;

[2]

- (ii) L labeling; [x axis A, B, C, D clearly labelled] [y axis volume of O₂ evolved cm³]
 - **S** suitable scale; [must fill more than half of grid, space for all letters even if no bar for C and D]
 - P plotting accuracy; [+- 0.5 mm i.e. half a square all correct for A and B samples]
 - **B** bars separate and same width; [**R** if bars touching] [4]

(iii)

		liver	potato
1	speed of reaction	faster	slower
		more vigorous	less vigorous
		more reactions	less reactions
2	volume of gas/O ₂	higher/larger/more	lower/less
	produced		no O ₂ is definite - R
3	calculation	1.8 times more	1.8 times less
		almost double	almost half
		3.5cm ³ more	3.5cm ³ less

Accept comparison or comparative point - er.

[Max: 2]

- (iv) 1 A one piece and B many (small pieces);
 - 2 link with surface area [A smaller/B larger];
 - 3 interior of large piece not reacted or converse or more enzyme/catalase released from small pieces/more reactant or more collisions if appropriate/AW; [Max: 2]
- (b) control for comparison to show an enzyme was involved/enzyme becomes denatured/deactivated/destroyed/AW;
- rekindle a glowing splint/glow brighter; (c) [1]
