**A new business – but which one?**

Abdul's job is to repair cars. He works for a large car sales business that sells new and second-hand cars. Abdul's uncle died earlier this year and left him \$5 000. He has always wanted to work for himself and now he has some money to start his own business. He could do this by buying a franchise. Abdul's wife is a qualified accountant. She works for a company that owns several furniture shops.

Abdul is going to choose between opening his own car repair business or buying a franchise from a big furniture retail business. To open his own car repair business will take a lot of effort to find a suitable location with the equipment needed. Buying a franchise for a furniture shop will be expensive. However, the franchise company will help Abdul with a lot of the start-up problems such as finding a suitable shop.

Abdul will need to employ staff whichever business he sets up. The car repair business will need qualified car repair workers and the furniture shop will require sales staff.

Abdul and his wife live in a large city in Country X. The country has a population of 10 million who are enjoying increasing incomes as there has been economic growth in Country X in recent years. However, unemployment is still a problem.

Abdul has carried out some market research for the car repair business as shown in Appendix 3. He has also prepared two profit forecasts for the businesses and these are given in Appendix 1.

**Appendix 1**

**Forecasted Profit and Loss Accounts year ending December 2009 for:**

	Car repair business	Furniture franchise
	\$	\$
Sales Revenue	100 000	200 000
Cost of Sales	10 000	100 000
Gross Profit	90 000	100 000
Expenses	80 000	60 000
Net Profit	10 000	40 000

**Appendix 2**

**Letter to Bank Manager**

Dear Sir/Madam

I want to set up my own business. I have \$5 000 to invest in my business but I need additional funds. I have two possible business ideas.

The first one is to set up my own car repair business and for that I will need an additional \$10 000 to buy equipment. I will rent my garage.

The second idea is to buy a franchise for a furniture shop and for that I will need an additional \$90 000. \$40 000 will be needed to buy the franchise and \$50 000 to buy furniture stock. I will rent my shop.

I would like to come and see you to discuss my two ideas.

Yours faithfully  
Abdul

Appendix 3

Questionnaire results for car repair business

1 How often do you have your car repaired or serviced?

2 How much do you usually pay for the servicing of your car?

3 Which car repair garage do you take your car to when it is repaired or serviced?

5

4 How far away from your home is this garage?

5 Why do you choose this garage?

Reason	Number of people
Cheap	10 people
Good quality service	8 people
Always taken car there	3 people
Know the owner	3 people

6 Where have you seen advertisements for garages?

7 Does your garage ever have promotions/special deals?

1 (a) (i) Abdul has made an appointment to see the Bank Manager. List **three** questions the Bank Manager might ask Abdul before deciding whether to give him the capital he will need.

Bank Manager's Question 1: .....

.....

Bank Manager's Question 2: .....

.....

Bank Manager's Question 3: .....

..... [3]

(ii) For **each** of the three questions, explain **why** the Bank Manager would ask the question.

Explanation (Question 1): .....
