

MARK SCHEME for the May/June 2013 series

0620 CHEMISTRY

0620/61

Paper 6 (Alternative to Practical), maximum raw mark 60

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

Page 2		Mark Scheme Syllabus	
		IGCSE – May/June 2012 0620	
a)		Mark Scheme Syllabus IGCSE – May/June 2012 0620 ctrode(s) / anode / cathode(either) (1) 0620 w: electrodes labelled wrong way round not: carbon/platinum o / lamp / light (1)	amb
	bul	o / lamp / light (1)	[2]
(b)	ligh	ted splint (1) pops (1) glowing splint = 0	[2]
c)	<u>gra</u>	duated test-tube / measuring cylinder (1) not: gas syringe as will not work	
	fille	d with electrolyte / acid / water inverted over electrode / owtte (1)	[2]
(d)	(i)	sodium hydroxide (1)	[1]
	(ii)	universal indicator with pH>7 / litmus turns blue (1) note: mark not awarded if (d)(i) is incorrect	[1]
(a)	to p	revent air / oxygen / bacteria entering jar (1)	[1]
(b)	pes	tle and / or mortar (1)	[1]
(c)	dia	gram of funnel <u>and</u> filter paper (1) labelled (1)	[2]
(d)	•	st would not work at high temperatures / kills yeast / denatures enzymes / owtte (1) w: kills enzyme	[1]
(e)	(i)	bubbles / froth (1) not: gas / CO ₂ given off / turns cloudy	[1]
	(ii)	(collect gas) and measure volume / count bubbles (1)	
		over certain time interval (1) allow: one mark for timing until bubbles / reaction stopped	[2]
	<u>frac</u>	tional distillation (1)	[1]
