UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

International General Certificate of Secondary Education

MARK SCHEME for the November 2005 question paper

0637 CHILD DEVELOPMENT

0637/01

Paper 1, maximum raw mark 100

Mann, PapaCambridge.com

These mark schemes are published as an aid to teachers and students, to indicate the requirements of the examination. They show the basis on which Examiners were initially instructed to award marks. They do not indicate the details of the discussions that took place at an Examiners' meeting before marking began. Any substantial changes to the mark scheme that arose from these discussions will be recorded in the published *Report on the Examination*.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the *Report on the Examination*.

The minimum marks in these components needed for various grades were previously published with these mark schemes, but are now instead included in the Report on the Examination for this session.

• CIE will not enter into discussion or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the November 2005 question papers for most IGCSE and GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Page 1 Mark Scheme Syllabu IGCSE – NOVEMBER 2005 0637 SECTION A SECTION A Comfort at times of distress. Helping parents in bringing up children. Looking after children when parents are at work or in an emergency. Giving advice on problems. Financial help etc. Any 4 Parents divorced or separated. Death of one parent. Births to single women. One parent away from home for a long time etc. Any 4 (a) Adoption: - - A legal process when adults become parents of children not born to them. - - Adoption must be in the best interest of the child. - - Adoption parents gain parental responsibilities etc. - - Natural parents relinquish parental responsibilities etc. - - Natural parents relinquish parental responsibilities etc. - - Natural parents gain parental responsibilities etc. - - Natural parents are paid an allowance, but have no legal parental responsibilities etc. - - Natural parents are paid an allowance, but have no legal parental responsibilities for the child. - <t< th=""><th>(1 x 4]</th></t<>	(1 x 4]
