This document consists of 4 printed pages and 2 A3 Inserts.

Answer **one** question only on the pre-printed A3 Answer Sheets provided.

- 1 Householders are now being expected to recycle waste products to help conserve raw materials.

Design a unit that will fit into a space in a kitchen and store four types of waste product of different materials separately.

- (a) List **four** additional points about the function of such a unit that you consider to be important. [4]
- (b) Use sketches and notes to show **two** places where such a unit could be positioned in a kitchen. [4]
- (c) Develop and sketch **three** ideas for the unit. [12]
- (d) Evaluate your ideas and justify why you have chosen **one** idea to develop more fully. [8]
- (e) Draw, using a method of your own choice, a full solution to the problem. Include construction details and important dimensions. [12]
- (f) Suggest **two** suitable specific materials for your solution and give reasons for your choice. [4]
- (g) Outline a method used to manufacture one part of your solution. [6]

- 2 Schools in your area have been asked to find ways to encourage the recycling of used products.

Design a portable display stand, for use in schools, to encourage the recycling of used products.

- (a) List **four** additional points about the function of such a portable display stand that you consider to be important. [4]
- (b) Use sketches and notes to show **two** ways of holding two recyclable products on the stand, for display purposes. [4]
