

Section A

Answer **all** questions in this section.

A1 A cinema leaflet is shown below.

Standard card sizes	
A2	594 x 420
A3	420 x 297
A4	297 x 210

The leaflet is made from a folded piece of standard size A4 card.

The unfolded A4 card is shown below.

(a) Complete the dimensions in the table below.

Dimension A	Dimension B	Dimension C

[3]

(b) Part of the logo on the front cover of the cinema leaflet is shown below.

Complete the logo by adding the missing ellipse.

A2 A pair of 3D cinema spectacles are shown below.

(b) In the space below complete the full size drawing of one half of the spectacles.

[11]

The 3D spectacles are made from one piece of thin card.

One half of the net for the spectacles is shown below.

A3 In the space below show a method of making the two arms adjustable to fit a range of different head sizes.

The method should **not** require the use of glue.

[2]

(a) State **two** pieces of anthropometric data used in the design of the 3D spectacles.
