

UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

International General Certificate of Secondary Education

MARK SCHEME for the November 2004 question paper

0453 Development Studies

0453/01

Paper 1, maximum mark 60

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which Examiners were initially instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began. Any substantial changes to the mark scheme that arose from these discussions will be recorded in the published *Report on the Examination*.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the *Report on the Examination*.

- CIE will not enter into discussion or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the November 2004 question papers for most IGCSE and GCE Advanced Level syllabuses.

Grade thresholds taken for Syllabus 0453 (Development Studies) in the November 2004 examination.

	Minimum mark available	Minimum mark required for grade			
		A	C	E	F
Component 1	60	43	33	25	21

The threshold (minimum mark) for B is set halfway between those for Grades A and C.
The threshold (minimum mark) for D is set halfway between those for Grades C and E.
The threshold (minimum mark) for G is set as many marks below F threshold as the E threshold is above it.
Grade A* does not exist at the level of an individual component.

November 2004

INTERNATIONAL GCSE

MARK SCHEME

MAXIMUM MARK: 60

SYLLABUS/COMPONENT: 0453/01

DEVELOPMENT STUDIES
Paper 1

Page 1	Mark Scheme	Syllabus	0453
	IGCSE EXAMINATIONS – NOVEMBER 2004		

- 1 (a) (i) Overpopulation or increasing population on a piece of land **without** any increase in farming productivity
- (ii) **Two** reasons:
 Increase in population/population growth/high birth rate/lack of birth control methods/early marriage
 Land being taken over for commercial farming/national parks
 Land degradation [2]
- (iii) **Two** ways:
 overgrazing
 deforestation
 overcultivation [2]
- (b) (i) **One**:
 no industrial development
 poverty of area gives no business opportunities that might employ people
 lack of services inhibits development [1]
- (ii) Members of family could earn money/work in dry season/would not have to migrate [1]
- (c) **Three** reasons:
 lack of roads
 lack of means of transporting crops/products
 lack of storage
 lack of consistent quality of goods
 lack of knowledge/contacts etc.
 remoteness [3]
- (d) Drought/flooding/failure of rains [1]
- (e) Examples of government credit schemes explained:
 e.g:
 money lent to buy new seeds and fertilisers → to produce higher yields
 money lent to fence grazing land → to enable rotational grazing to take place etc.
 money lent to build bore-hole/well etc. → to provide water for animals
 → to provide irrigation water

Answer must make it clear that money is lent and how it improves farming [4]

[15 marks]

Page 2	Mark Scheme	Syllabus	0453
	IGCSE EXAMINATIONS – NOVEMBER 2004		

- 2 (a) (i) The number of years a new born baby is likely to live/average number of person is expected to live
- (ii) It has dropped/fallen/gone down [1]
- (iii) Swaziland [1]
- (iv) **Three** reasons:
 Better health facilities
 Clean water/personal hygiene
 Education about health
 Improved nutrition/diet
 Improved transport/accessibility to doctors etc.
 Better sanitation/sewage disposal system
NOT better living conditions [3]
- (b) (i) Botswana [1]
- (ii) It will have gone up/risen [1]
- (iii) **Three** reasons:
 Loss of able bodied people/young people
 High cost of medical care/dependency
 Investment diverted from productive alternatives
 Loss of foreign earnings/tourists etc.
 Need to bring in experts to work in key jobs
 Orphans do not go to school - impact on literacy rates [3]
- (c) **Two** government health programmes named and described e.g:
 School health education programmes to alert young people to problem of AIDS
 Free distribution of drugs to prevent new born babies contracting AIDS
 TV/newspaper advertisements on AIDS
 Testing centres for HIV positive
 Programmes for young people in Health Clinics etc. [4]

[15 marks]

	IGCSE EXAMINATIONS – NOVEMBER 2004		

- 3 (a) (i) "rule by the people"/form of government in which representatives are elected for a few years
- (ii) **Two:**
free elections/regular elections/universal adult suffrage *No double counting of election of representatives from (a)(i)*
different political parties
basic rights to a fair trial/free speech/freedom of association/free press [2]
- (b) (i) **Three:**
Free enterprise/people free to set up own business/lack of government control of production
Profit motive
Competition
Market/prices controlled by supply and demand [3]
- (c) **Two** points:
Major industries and services are state controlled/state controls or owns the means of production
State controls prices
Competition is restricted
Individual businesses are not allowed/discouraged
People work for good of society and not for profit
To provide people's basic needs [2]
- (d) Because a mixed economy takes some of characteristics from both capitalist/market and socialist/planned types of government/economy.
or allow an explanation that includes some nationalised industries and some private companies
Answer must show both characteristics to gain full marks [2]
- (e) (i) To raise money to run the country and carry out development [1]
- (ii) **Two:**
Income tax
Company tax
Sales tax
Value added tax/VAT
Import/export duty/tariffs [2]
- (f) **Two:**
To allow local voices/grass roots to be heard/more appropriate to local needs
To lessen the influence of central government/the urban elite/decentralise decision making
Decisions made in the capital would be related to urban issues
Services more likely with local support [2]

[15 marks]

Page 4	Mark Scheme	Syllabus	0453
	IGCSE EXAMINATIONS – NOVEMBER 2004		

- 4 (a) (i) Gross National Product
- (ii) **Three** points:
 Growth of GNP per head or growth from 800 to 17,500 US\$ per head
 Became democratic
 Able to invest in other countries
 Exports/manufactures' greater range of goods
 Exports/manufacturers' higher value goods [3]
- (b) (i) Concentration on exporting industrial goods [1]
- (ii) **Two** reasons:
 to save foreign currency
 to encourage savings
 to limit competition for local industries
 to protect employment in local industries [2]
- (c) (i) A company which operates all over the world [2]
- (ii) **Three** advantages:
 Profits stay in the country
 Employ own people/do not rely on expatriates
 No competition with local companies
 Not reliant on decisions made outside the country
 Protection of resources/environment
 Limit exploitation of cheap labour force
 Helps protect local economy/employment from MNC withdrawal [3]
- (d) (i) **Two** characteristics:
 Rule by a single person
 No personal freedom
 No accountability/no free elections etc.
 Military rule [2]
- (ii) **Two** points:
 No strikes
 Could pay low wages
 Could allow poor working conditions [2]

[15 marks]

Page 5	Mark Scheme	Syllabus	0453
	IGCSE EXAMINATIONS – NOVEMBER 2004		

- 5 (a) (i) The warming/heating of the earth's **atmosphere**
- (ii) 50 parts per million
- (iii) The increase in CO₂ is trapping earth's heat/greenhouse effect etc.
Reference to the positive correlation [1]
- (b) (i) **Two** ways:
By the use of machinery which uses oil/diesel etc.
By using fertilisers and pesticides which consume a great deal of power in their manufacture
By clearing large areas of land by burning down forests etc.
By removing vegetation/trees which absorb CO₂
Increased production means more transport of goods to markets [2]
- (ii) **Two** reasons (*Not farming*):
To make way for building/urbanisation/housing
To make way for industry
To make way for transport/roads
For fuel
For use in construction/industry [2]
- (iii) **Two**:
Laws that trees must be replaced/replanting schemes
Laws to prevent cutting/deforestation/punish those who do
Designating National Parks/Green Belts
Laws to prevent sale of trees from non-renewable sources/creation of sustainable forests
Education about the benefits of conserving forests
Encourage recycling
Provision of alternative fuel supplies [2]
- (c) **Three**:
By increased use of fossil fuels/energy in industries
By increased trade and transporting goods long distances
By increasing supply/encouraging demand for energy using/consumer products/cars
By increasing demand for wood/ plastics
NOT deforestation [3]
- (d) **Three** effects *described*:
Flooding of low-lying land/estuaries/islands
Changes in cropping patterns
Less predictable weather patterns
Increased likelihood of hurricanes/typhoons etc.
Movement of ocean currents/loss of fishing industry
Desertification/increases in rainfall/longer droughts *as appropriate to country*
Effects on species
Bush fires
NOT increase in temperature [3]

[15marks]

Page 6	Mark Scheme	Syllabus	0453
	IGCSE EXAMINATIONS – NOVEMBER 2004		

- 6 (a) Land, labour and capital
- (b) (i) **Three** ways:
to buy raw materials
to pay for labour
to pay for infrastructure
to pay for semi-processed goods [3]
- (ii) Machinery/factory buildings [1]
- (c) Semi-finished goods need further processing
Finished goods are ready for sale to public [1]
- (d) **Three**:
Power/electricity/gas/coal/fuel etc.
Telecommunications/telephones/computers/internet etc.
Water
Transport [3]
- (e) (i) Labour intensive. [1]
- (ii) **Two** advantages:
Speeds production/saves time
Specialisation/each becomes better at particular job/improves quality
Saves costs
Increases efficiency [2]
- (iii) **Three** difficulties:
Shortage of skilled labour
High cost of paying for expatriate labour/shortage of foreign currency
High cost of training/higher wages
High costs due to break downs and shortages etc. [3]

[15 marks]
