UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS International General Certificate of Secondary Education

Wany, Dana Cambridge, com MARK SCHEME for the October/November 2010 question paper

for the guidance of teachers

0460 GEOGRAPHY

0460/13

Paper 1, maximum raw mark 75

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2010 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Page	2	Mark Scheme: Teachers' version	Syllabus Syllabus	r
		IGCSE – October/November 2010	0460 203

	IGCSE – October/November 2010	0460	Day
offe suc sub or c wor e.g pay	rategies such as: fer incentives to people with larger families; ch as free education/healthcare (dev); bsidised housing for large families; offer of cash to have more babies/monthly payments omen with large families given medals/gifts; g. title of 'Hero Mother' given to women with large fam y women to give up work to have child/maternity leav opaganda idea/adverts/education on benefits; c.	nilies (dev);	ild credits;

(c) Levels marking

Level 1 (1-3 marks)

Statements including limited detail explaining low rates of natural population growth. (e.g. children have to attend school, there is plenty of contraception, Many women work, low birth rate, high death rate, high cost of children, death rate is equal to birth rate. etc.)

Level 2 (4–6 marks) Max 5 if no example. 3 developed statements plus named example for 6 marks.

More developed statements explaining low rates of population growth.

(e.g. children have to attend school therefore large numbers create a greater economic burden, contraception is easily available in all parts of the country, many women are career minded so prefer to wait longer until they have children, developed reasons for high death rate and low birth rate. etc.)

Level 3 (7 marks) Must include place specific information.

Uses named example (e.g. France).

Comprehensive and accurate statements including some place specific reference.

(e.g. children have to attend school therefore large numbers create a greater economic burden, contraception is easily available even in rural area such as Massif Central as there are family planning clinics, in urban areas such as Paris many women are career minded so prefer to wait longer until they have children. Could also quote accurate population growth rates/dates for place specific. etc.) [7]

[Total: 25]

2 (a) (i) Area where town and countryside meet/edge of town/city etc.

1 mark

[1]

(ii) Golf course; Tennis courts; School/educational; Farm/agricultural; Housing/residential; Roads/streets;

2 @ 1 mark

[2]

Page 4		Syllabus
	IGCSE – October/November 2010	0460 230
(iii)	Ideas such as: construction noise/disturbance from noise; extra traffic on roads/congestion; more dangerous to cross (dev); spoils view/visual pollution; pressure on local schools/overcrowded classes; air pollution from vehicles/machinery/lorries; loss of hedgrows/trees/wildlife/Greenland/open space/ha property prices fall; etc.	
	3 @ 1 mark	[3]
(iv)	Ideas such as: Advantages: Retains rural/peaceful environment/stops excessive prevents unsightly buildings being built; people can easily access land for walking dog/cycling/ar lead to increased property prices; Provides clean air for city/stops/reduces air pollution; May contain water sources for city/no water pollution e.g Can be used for producing food/farming; etc.	menity;
	<i>Disadvantages:</i> Makes expansion of urban area more difficult; less land to build services e.g. schools; Therefore building of new housing is difficult/not enough encourages upward growth/high rise; Have to live further away from city/development has to b leads to more traffic movement/congestion/more fumes/ makes construction of ring roads/by passes difficult/rail/a increased property prices;	be at other side of green belt; /air pollution from traffic;
	MAX 3 marks on Advantages/disadvantages NB: No double credit.	
	4 @ 1 mark	[4]
)) (i)	Differences such as: high rise in A lower in B; flats/apartments in A/housing in B; houses with gardens in B but not in A/more private space off road parking/drives in B but not in A; higher cost housing in B; houses in B have more land/area than A; Fences in B none in A; B is more spacious/bigger than A/A is more crowded/det A is brightly coloured B is lighter/cream; etc.	
	NB: Must be comparative and use evidence from the ph	iotographs.
	3 @ 1 mark	[3
	0	•

 IGCSE – October/November 2010 (ii) Ideas such as: In A quality of life is likely to be lower; As there will be more noise from adjacent properties And homes are less spacious/overcrowded (dev); 	Syllabus 0460 s (dev); ardens;	hbri			
In A quality of life is likely to be lower; As there will be more noise from adjacent properties	(dev);	hbri			
In A quality of life is likely to be lower; As there will be more noise from adjacent properties	(dev);	Or:			
As there will be more noise from adjacent properties	; (dev);				
· · · ·	(401),	100			
In B people will have more land/be able to relax in ga	ardens:				
Lower unemployment in B;					
	Therefore people will have more disposable income/be able to afford higher quality of life				
(dev);	<u> </u>				
there are more car owners in area B;					
therefore people have more mobility/do not have to r	rely on public transport (dev);				
People in Area B are likely to feel more secure;					
As they are surrounded by fences (dev)					
Higher percentage of owner occupied in B;					
etc.					
NB: Must be comparative.					

(c) Levels marking

Level 1 (1–3 marks)

Statements including limited detail describing a change in land use in a town or city and/or advantages and/or disadvantages of the change.

(e.g. loss of farmland, easy to go shopping by car, competes with businesses in centre etc.)

Level 2 (4–6 marks) Max 5 if no example. 3 developed statements plus named example for 6 marks.

More developed statements about advantages and disadvantages of the change, along with some description of the change in land use.

(e.g. traffic congestion as many people who use new shopping centre travel by car, loss of farmland due to new shopping centre/road construction, atmospheric pollution from increased traffic, easy to go shopping by car as out of town centre has free car parking etc.)

Level 3 (7 marks) Must include place specific information.

Uses named example (e.g. Warsaw).

More developed statements about advantages and disadvantages of the change, including some place specific reference, along with some description of the change in land use.

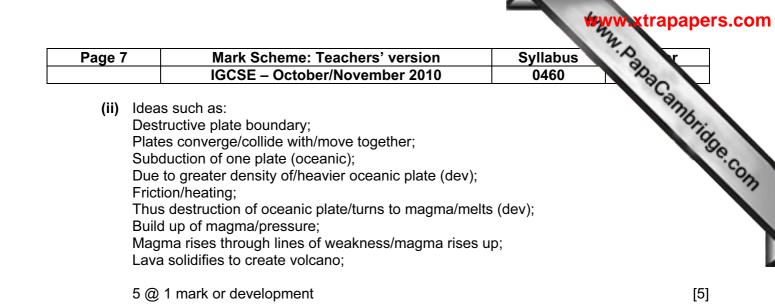

(e.g. building Arkadia shopping mall covering a total area of 287 000 m² the biggest shopping mall in Central Europe, disadvantage is: traffic congestion as many people who use new shopping centre travel by car, as there are 4000 free parking spaces which is an advantage, other advantages include: easy to go shopping as Arkadia is served by 15 bus routes and 10 tram lines, offers people greater shopping choice including Lacoste, Gant, Peek & Cloppenburg and Tommy Hilfiger, as well as high street chains like Zara, Espirit and Kappahl etc.)

NB: For level 3 must have advantage and disadvantage.

[7]

[Total: 25]

Page 6	Mark Scheme: Teachers' version IGCSE – October/November 2010	Syllabus 0460
(a) (i)	It had not erupted before/it was thought to be dormant/extin	act/first recorded eru
	1 mark	19
(ii)	Distance = 4 to 5 km Direction = west	Syllabus 0460 act/first recorded eru
	2 @ 1 mark	[2]
. ,	Effects such as: damaged/destroyed buildings; towns had to be evacuated/people left the island; destruction of forests/trees; loss of farmland/crops; disruption of transport; tourists unlikely to visit; factories destroyed; jobs lost; economic decline/lowers GNP; impact on river; wildlife/habitats/ecosystems/food chains destroyed; etc.	
	3 @ 1 mark	[3]
()	Ideas such as: they were not expecting the eruption/not predicted; were not prepared; they had no previous experience of dealing with volcanic er it continued to erupt for over 2 years; it destroyed many houses/people homeless/have to rebuild capital city affected therefore most important buildings lost; loss of business/income/earnings; no food available/loss of agricultural land/can't produce food small island so large proportion was affected; so aid difficult to reach; etc.	houses;
	4 @ 1 mark	[4]
(b) (i)	Ideas such as: along plate boundaries/where plates meet; (Reserve 1 mark e.g. down middle of Atlantic Ocean; around Pacific Ocean/west coast of Americas/East Asia; through Mediterranean/North Africa; East Africa is an exception.	k)
	NB: May use names of places or plates if relevant.	
	3 @ 1 mark	[3]

(c) Levels marking

Level 1 (1–3 marks)

Statements including limited detail describing causes of a flood, tropical storm or drought. (e.g. heavy rain, impermeable rocks, flood plains built on, for drought: a prolonged period of time without rainfall, delayed rainfall etc.)

<u>Level 2</u> (4–6 marks) Max 5 if no example. 3 developed statements plus named example for 6 marks.

More developed statements describing causes of flood, tropical storm or drought.

(e.g. heavy rain falling over a relatively short period, impermeable rocks encouraging overland flow and rapidly raising river levels, underlying rocks river/constricting flow, for drought – late arrival of SW monsoon etc.)

Level 3 (7 marks) Must include place specific information.

Uses named example (e.g. Lynmouth floods).

Comprehensive and accurate statements including some place specific reference.

(e.g. thunderstorms associated with frontal depression formed torrential rain – 229 mm near Longstone Barrow on Exmoor, saturated from previous rainfall as it had rained for 12 of the previous 14 days, impermeable rocks of Exmoor encouraging overland flow and rapidly raising river levels, river had been diverted and its channel made narrower due to building of hotels in Lynmouth, bridges over river trapped boulders and formed temporary dams etc.) [7]

[Total: 25]

4 (a) (i) Physical = Freeze-thaw/exfoliation Chemical = Carbonation/oxidation

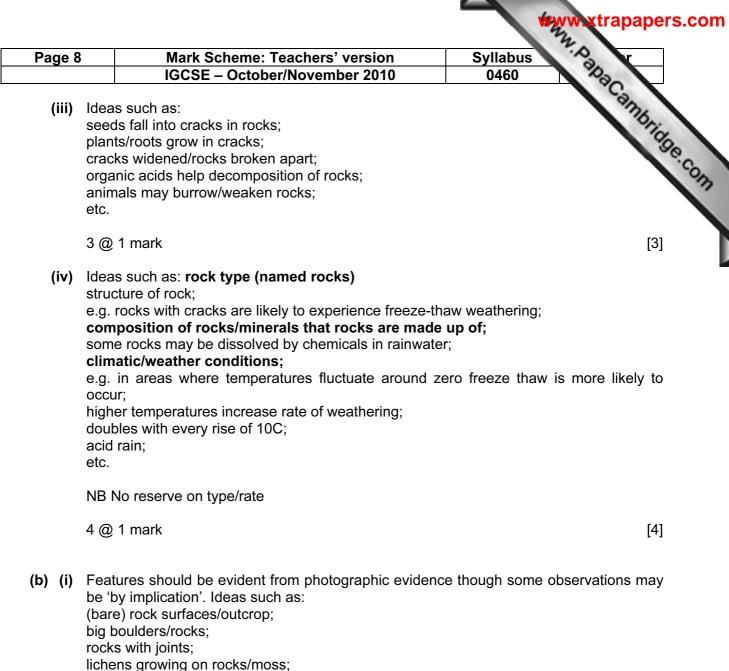

1 mark

[1]

(ii) Chemical weathering involves a change in (chemical) composition of rocks/physical does not involve chemical change/involves rocks breaking down into smaller particles.

2 @ 1 mark

[2]

lichens growing on rocks/moss; round/smooth rock surfaces; vertical/steep slopes; rolling hills/gentle slopes/farmland in the background/trees/woodland in background; eroded rock in middle/worn down in middle; different levels/steps; etc.

3 @ 1 mark

[3]

Page 9	Mark Scheme: Teachers' version	Syllabus	
	IGCSE – October/November 2010	0460	

(ii) Candidates should describe the process of freeze-thaw weathering. Creating answers or information included as part of labelled diagrams (do not double creating Expect ideas such as: rain collects in cracks/joints; temperature falls; thus water freezes; expands (dev); stress on cracks/joints; joints opened(dev)/therefore pressure on rock; melting; more water enters the joints/repetition etc.

NB: Diagram must be labelled or link to answer.

5 @ 1 mark or development

[5]

trapapers.com

(c) Levels marking

Level 1 (1–3 marks)

Statements including limited detail describing opportunities for people who live in chosen area. e.g. fast flowing river

(e.g. Scenic beauty, tourist industry, HEP, transport etc.)

<u>Level 2</u> (4–6 marks) Max 5 if no example. 3 developed statements plus named example for 6 marks.

More developed statements describing opportunities for people who live in chosen area. e.g. fast flowing river

(e.g. Scenic beauty/tourist industry provides specified employment opportunities, HEP attracts industry/multiplier effect, downriver transport of logs etc.)

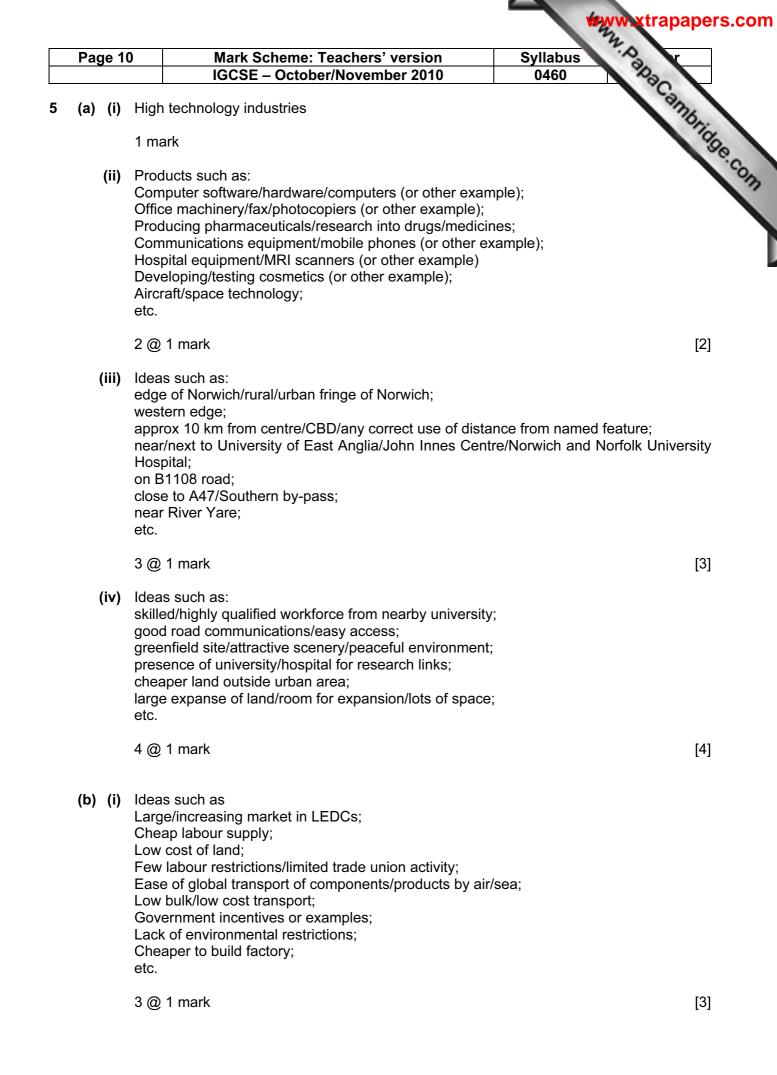

Level 3 (7 marks) Must include place specific information.

Uses named example (e.g. Montmorency River, Quebec).

Comprehensive and accurate statements including some place specific reference.

(e.g. Scenic beauty e.g. waterfall at Montmorency Falls; tourist industry provides specified employment, HEP generated for Quebec City, attracts industry/multiplier effect as smelting industries have been established close to where it joins St Lawrence river, downriver transport of logs from upper reaches to sawmills near Quebec etc.) [7]

[Total: 25]

MAXIMUM 3 MARKS ON EACH OF ADVANTAGES and DISADVANTAGES

5 @ 1 mark or development

[5]

(c) Levels marking

Level 1 (1–3 marks)

Statements including limited detail explaining location of manufacturing/processing industry (e.g. large workforce, good transport links, cheap land, raw materials, energy supply, water supply, cheap labour, skilled labour etc.)

<u>Level 2</u> (4–6 marks) Max 5 if no example. 3 developed statements plus named example for 6 marks.

More developed statements explaining location of manufacturing/processing industry (e.g. large workforce with engineering skills, or from nearby (named) university, good rail links to raw material supplies, located on coalfield for energy supply, water supply to use in processing etc.)

<u>Level 3</u> (7 marks) Must include place specific information. For named example must state what and where it is.

Uses named example (e.g. sugar refining in Baltimore USA).

Comprehensive and accurate statements including some place specific reference.

(e.g. good motorway links to markets in large cities such as New York and Washington, adjacent port facilities for import of sugar cane from Caribbean, government grants due to investment in declining industrial areas, large areas of flat land adjacent to waterside for storage of raw cane, large workforce in urban area which has high unemployment rate due to recent industrial decline etc.)

NB: for place specific allow statistics/names of places/universities/airports etc. [7]

 Mark Scheme: Teachers' version

 IGCSE – October/November 2010
 0460

 Ideas such as:
 Local farmers can sell vegetables in hotels/fishermen sell fish to hotels or restaure

 Local farmers contracts (dev);
 bigher prices than to locals (dev);

 (ii) Ideas such as: infrastructural developments/electricity/water/sanitation; development of airport for possible international travel; cultural exchange: retention of local cultures; as there is a demand to see local dance/music/festivals (dev); formal sector jobs; examples of formal sector jobs in the tourism industry e.g. waiter in hotel (dev); stable source of income/regular contract/pay; etc.

5 @ 1 mark or development

[5]

trapapers.com

(c) Levels marking

Level 1 (1–3 marks)

Statements including limited detail which explain why tourist industry developed. (e.g. hot weather, sunny, low rainfall, nice scenery, beaches, local culture, easy to get to etc.)

Level 2 (4–6 marks) Max 5 if no example. 3 developed statements plus named example for 6 marks.

More developed statements which explain why tourist industry developed.

(e.g. long hours of sunshine especially June to September, average temperatures of over 20 °C during summer months, low rainfall April to Oct, clean blue seas, waterfront restaurants/bars, attractive headlands with cliffs, sheltered sandy bays ideal for sunbathing, ease of access via good roads and airport etc.)

Level 3 (7 marks)

Uses named example (e.g. Algarve). Must include place specific information.

Comprehensive and accurate statements, which explain why tourist industry developed, with some place specific reference.

(e.g. long hours of sunshine especially June to September, average temperatures of over 20 °C during summer months, low rainfall April to Oct, clean blue seas, waterfront restaurants/bars in resorts like Albufeira, attractive headlands with cliffs at Lagos, sheltered sandy bays ideal for sunbathing, ease of access via good roads and Faro airport etc.)

NB: Must refer to Natural and Built environment for Level 3.
