Paper 1

**October/November 2018**

**1 hour 45 minutes**

Candidates answer on the Question Paper.

Additional Materials:     Ruler  
   Calculator

**READ THESE INSTRUCTIONS FIRST**

Write your Centre number, candidate number and name in the spaces provided.

Write in dark blue or black pen.

You may use an HB pencil for any diagrams or graphs.

Do not use staples, paper clips, glue or correction fluid.

DO **NOT** WRITE IN ANY BARCODES.

Write your answer to each question in the space provided.

If additional space is required, you should use the lined pages at the end of this booklet. The question number(s) must be clearly shown.

Answer **three** questions, **one** from each section.

The Insert contains Fig. 2.2 for Question 2, Figs. 5.3 and 5.4 for Question 5 and Figs. 6.2 and 6.3 for Question 6.

The Insert is **not** required by the Examiner.

Sketch maps and diagrams should be drawn whenever they serve to illustrate an answer.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [ ] at the end of each question or part question.

Definitions

MEDCs – More Economically Developed Countries

LEDCs – Less Economically Developed Countries

This syllabus is approved for use in England, Wales and Northern Ireland as a Cambridge International Level 1/Level 2 Certificate.

This document consists of **29** printed pages, **3** blank pages and **1** Insert.

Section A

Answer **one** question from this section.

- 1 (a) Study Fig. 1.1, which shows information about the population structure of Ethiopia (an LEDC) in 2010 and 2030 (predicted).

Fig. 1.1

- (i) What percentage of the population of Ethiopia in 2010 were male aged 0 to 4?

..... % [1]

- (ii) Describe how the **total** percentage population aged 0 to 4 is expected to change between 2010 and 2030. You should use statistics in your answer.

.....  
 .....  
 .....  
 ..... [2]

(iii) Suggest how the population structure of Ethiopia is likely to change after 2030.

Young dependents .....

.....

Old dependents .....

.....

Economically active .....

.....[3]

(iv) Suggest reasons for the expected changes in the percentage of young and old dependents in Ethiopia.

Young dependents .....

.....

.....

.....

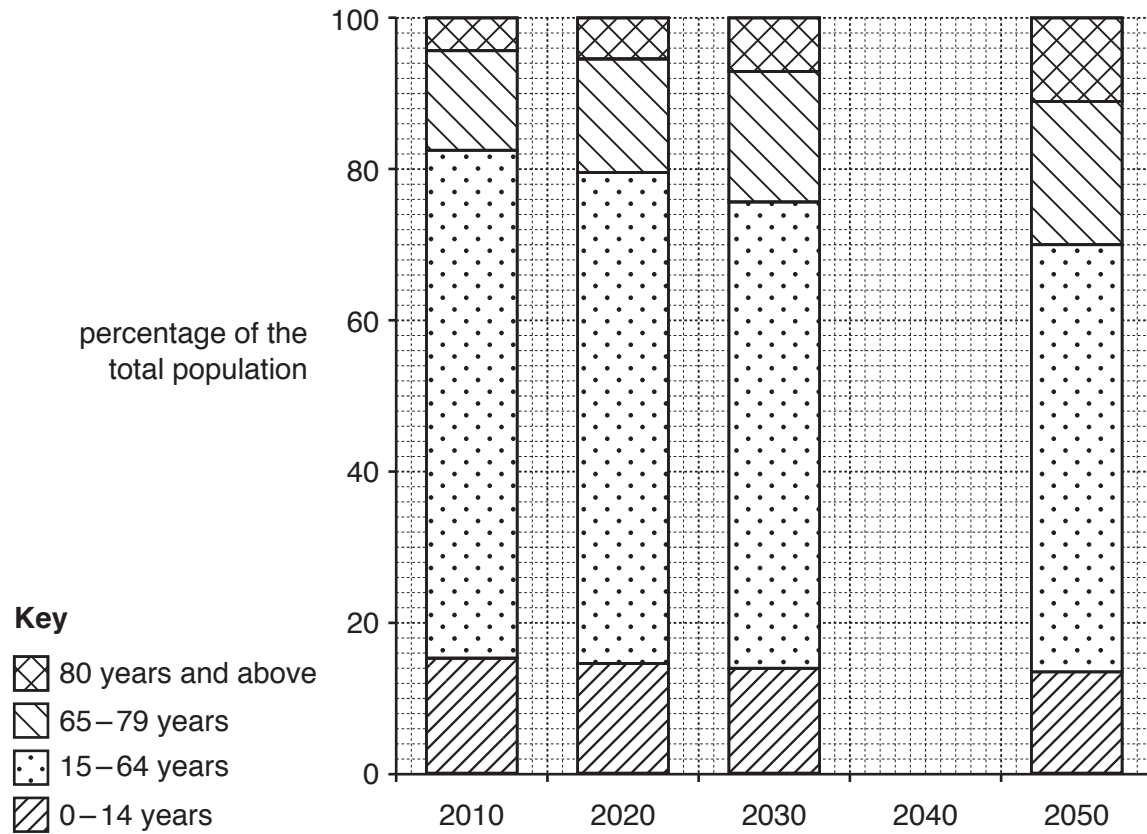

Old dependents .....

.....

.....

.....[4]

- (b) Study Fig. 1.2, which predicts how the percentage of different age groups in the European Union (EU) may change between 2010 and 2050.

**Fig. 1.2**

- (i) **Complete Fig. 1.2** by plotting the following information for 2040.

Age (years)	Percentage of population
0 to 14 years	13
15 to 64 years	58
65 to 79 years	19
80 years and above	10

[3]

- 2 (a) Study Fig. 2.1, which shows information about the percentage of the population living in urban areas in 2010 and 2050 (predicted).

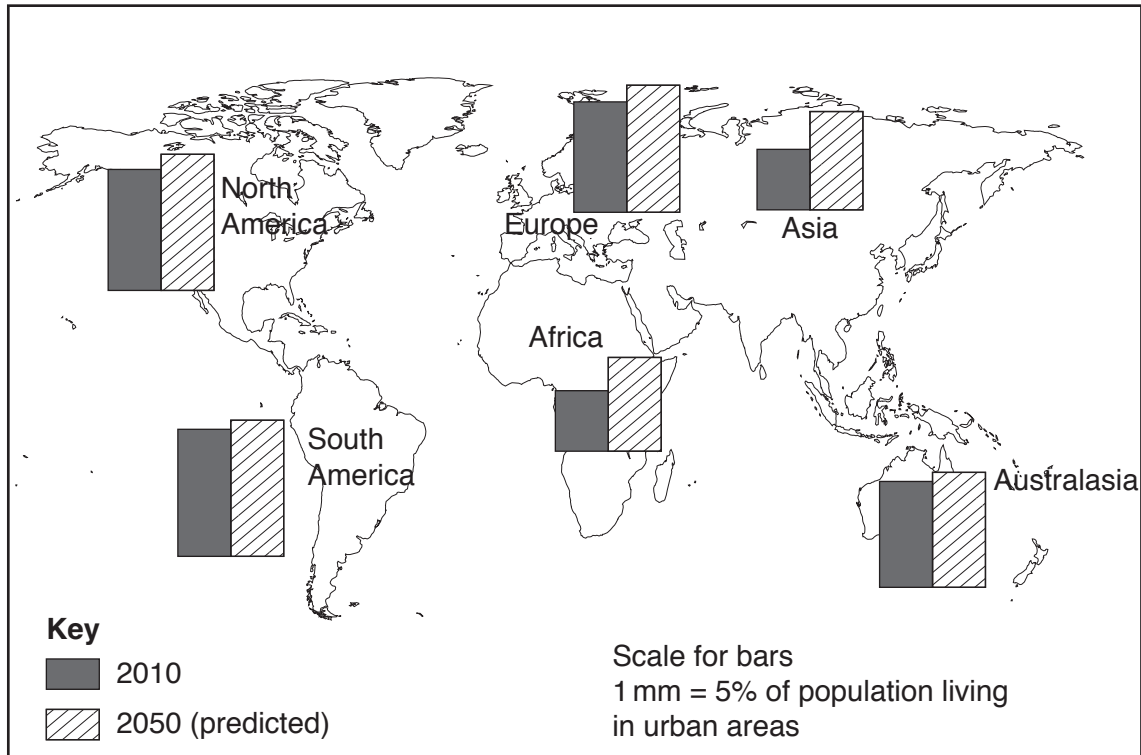

Fig. 2.1

- (i) What percentage of the population of North America lived in urban areas in 2010?

..... % [1]

- (ii) Describe how the percentage of the population of Asia living in urban areas is expected to change between 2010 and 2050. You should use statistics in your answer.

.....  
 .....  
 .....  
 ..... [2]

(iii) Suggest reasons why a larger percentage of the population lived in urban areas in North America than in Africa in 2010.

.....  
.....  
.....  
.....  
.....  
.....  
.....[3]

(iv) Explain why urbanisation is taking place in LEDCs.

.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....[4]

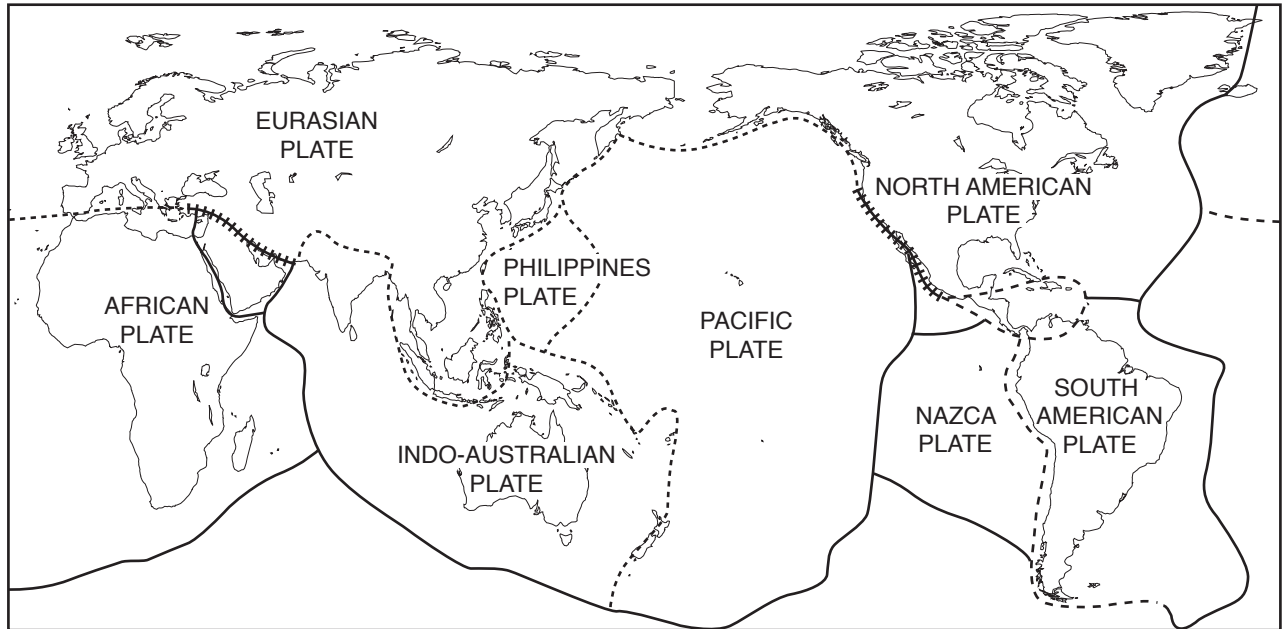

Section B

Answer **one** question from this section.

- 3 (a) Study Fig. 3.1, which shows the earth's tectonic plates and their boundaries.

KEY

- divergent (constructive) plate boundary
- - - - - convergent (destructive) plate boundary
- ||||| conservative plate boundary

Fig. 3.1

- (i) At which type of plate boundary do plates move **away from** each other?

Circle your answer in the list below.

- Conservative                  Convergent                  Divergent

[1]

- (ii) Explain why volcanoes form at places where plates move **away from** each other.

.....

.....

.....

..... [2]

(iii) Explain why volcanoes form at places where plates move **towards** each other.

.....  
.....  
.....  
.....  
.....  
.....  
.....[3]

(iv) Explain why **earthquakes** occur at plate boundaries.

.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....[4]

- (b) Study Fig. 3.2, which is information about a volcanic eruption in Chile (an LEDC in South America).

### Chile volcano Villarrica erupts

More than 3000 people have been evacuated from nearby areas as the Villarrica volcano in southern Chile erupted in the early hours of Tuesday morning. Lava and clouds of ash were ejected from the volcano. The 2840 metre volcano has a lava lake in its crater which is a popular destination for hikers who climb the peak to look inside the crater.

The last major eruption was in 1985 and there have been smaller eruptions since then. More than 100 people are thought to have died in mudflows and from breathing poisonous fumes from the volcano during the 20th Century.

**Fig. 3.2**

- (i) Using information from Fig. 3.2 **only**, identify **three** hazards caused by the eruption of the Villarrica volcano.  
1 .....  
2 .....  
3 ..... [3]

- (ii) Explain what can be done to reduce the impacts of volcanoes.  
.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....  
..... [5]

- 4 (a) Study Fig. 4.1, which shows the drainage basin of the River Tillingbourne in the UK (an MEDC).

**Key**

- watershed
- hills
- ~ river

**Fig. 4.1**

- (i) What is the general direction in which the River Tillingbourne is flowing?

.....

[1]

- (ii) On Fig. 4.1, **mark and label** the following:

- the confluence of the River Tillingbourne and Law Brook (label with an **X**).
- the source of Law Brook (label with an **S**).

[2]

(iii) Suggest **three** reasons why the River Tillingbourne is more likely to flood than Law Brook.

- 1 .....
- .....
- 2 .....
- .....
- 3 .....
- .....[3]

(iv) Shalford is a large village with a population of 4100.  
Describe the problems which flooding may cause in Shalford.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....[4]

Section C

Answer **one** question from this section.

- 5 (a) Study Figs. 5.1 and 5.2, which show information about the manufacture of linen in Belfast, Northern Ireland (UK, an MEDC) in 1900 and the present day. Linen is a cloth made from a plant called 'flax'.

Fig. 5.1

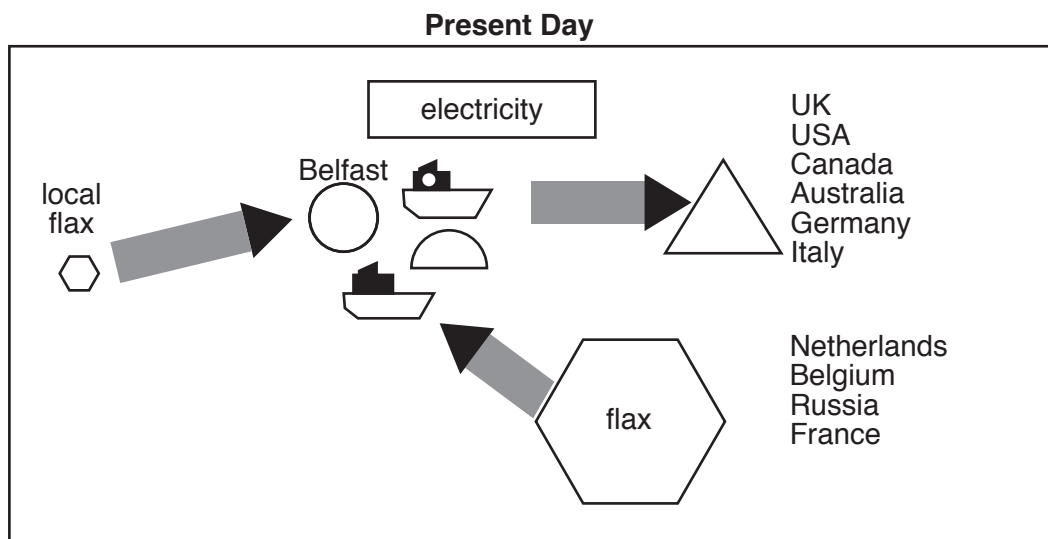

Fig. 5.2

**Key**

	raw materials		export
	source of labour		import
	market		finished product
			other important factors

N.B. The size of the symbol is proportionate to the amount

(i) What is meant by *manufacturing industry*?

.....  
.....[1]

(ii) Using Fig. 5.1 **only**, identify:

– the main source of labour in 1900

.....

– the main market for linen in 1900.

.....[2]

(iii) Using Figs. 5.1 and 5.2, describe **three** ways in which the linen industry in Northern Ireland has changed between 1900 and the present day.

1 .....

.....

2 .....

.....

3 .....

.....[3]

(iv) Explain why manufacturing industries remain important in some areas even though the original advantages of those locations no longer exist.

.....

.....

.....

.....

.....

.....

.....

.....[4]

(b) Study Figs. 5.3 and 5.4 (Insert), which are photographs showing a manufacturing industry in Corfu, Greece (an MEDC).

(i) Describe the processes shown in Figs. 5.3 and 5.4.

.....  
.....  
.....  
.....  
.....  
.....  
.....[3]

(ii) Explain why the percentage of the population employed in manufacturing industry changes as a country develops.

.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....[5]

- 6 (a) Study Fig. 6.1, which shows a map of the location of reservoirs near Sheffield, UK (an MEDC), along with Figs. 6.2 and 6.3 (Insert) which are photographs which show two of the reservoirs. Fig. 6.2 shows Agden Reservoir. Fig. 6.3 shows Dale Dyke Reservoir.

Fig. 6.1

- (i) What is meant by a *reservoir*?

.....  
 .....[1]

- (ii) Using Fig. 6.1, describe **one** similarity and **one** difference between Agden and Dale Dyke reservoirs.

Similarity .....

.....

Difference .....

.....[2]

A series of horizontal dotted lines for writing, spanning the width of the page.

**BLANK PAGE**
