**MARK SCHEME for the October/November 2011 question paper  
for the guidance of teachers**

**0470 HISTORY**

**0470/13**

Paper 1, maximum raw mark 60

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

## 1 Use of the Mark Scheme

- 1.1 It is not possible to cover every possible type of response within a levels of response scheme and examiners are expected to use their professional judgement at all times ensuring that responses are placed in the correct levels and given an appropriate mark within that level.
- 1.2 Marking must be positive. Marks must not be deducted for inaccurate or irrelevant answers. Half- marks must not be used.
- 1.3 The full range of marks should be used. Do not be afraid to award full marks or no marks. Failure to do this will seriously affect the distribution of marks. Be prepared to reward candidates who show any level of understanding. The mark scheme starts from basic acceptable response.
- 1.4 Be consistent from script to script and from batch to batch.
- 1.5 Indicate that all answers have been seen.
- 1.6 Do not transfer marks from one part of a question to another.
- 1.7 If a candidate reaches a particular level s/he must be rewarded with a mark within that level. It is not necessary to work through the levels.
- 1.8 Exhaustive lists of possible facts are not given in the mark scheme, as there is often a choice of factual knowledge that candidates may use.
- 1.9 **WHERE EXAMPLES OF RESPONSES ARE GIVEN, THESE ARE NOT PRESCRIPTIVE, BUT ARE INTENDED AS A GUIDE.**
- 1.10 Where a band of marks is indicated for a level these marks should be used with reference to the development of the answer within that level.

## 2 Marking

- 2.1 All marking should be in red.
- 2.2 The level, and mark awarded for each part question, **MUST** be shown clearly in the margin of the script towards the end of an answer, e.g. L3/8.
- 2.3 At the end of each question the total mark achieved by the candidate for that question **MUST** be indicated in a circle.
- 2.4 The total mark for each question should be transferred to the front page of the script. The marks for the three questions should be totalled and indicated. The final total for the script should then be circled.
- 2.6 It is not necessary to tick the body of an answer and examiners should refrain from doing so.
- 2.7 Examiners must indicate, in the body of the response, where a level has been achieved and, where appropriate, marks are gained.

## 3 Assessment Objectives

- 3.1 The Assessment Objectives being tested in each part of a question are:
  - (a) recall, description
  - (b) recall, explanation
  - (c) recall, explanation and analysis.

**Level 3** Explains reasons [4–7]

(One mark for an explanation, additional mark for full explanation.)

'Germany's attempts to pay reparations instalments made matters worse. Germany had requested permission to suspend payments until its economy recovered. The French refused and in 1922 the Germans were unable to make the full annual payment. It needed a loan, such as the Dawes Plan, to help pay these early instalments.'

'In January 1923 the French occupied the Ruhr to seize goods from the factories and mines. The German government ordered the workers to follow a policy of passive resistance. German industry was paralysed in the Ruhr and the effect on the German economy was catastrophic.'

'By November 1923 the value of the mark was falling rapidly, causing hyperinflation. There was a need to stabilise the mark. A new currency and a massive loan were the aims of Stresemann.'

'The Dawes Plan was needed to rebuild industry, to increase employment, to increase international trade and increase profits. It could also help pay back reparation instalments.'

'The recovery was because of the enormous loans given to Germany by the USA. Between 1924 and 1929, Germany received over 25 billion marks in loans. With this German industry was re-built. An example of the loans was the Dawes Plan, which was negotiated with the USA and provided Germany with loans of 800 million gold marks.
