**MARK SCHEME for the October/November 2011 question paper
for the guidance of teachers**

0470 HISTORY

0470/43

Paper 4 (Alternative to Coursework), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

- Level 2 – Makes valid inference(s), unsupported from the source e.g. The population appears to grow bigger; immigration seems to reduce etc. [3–4]
- Level 3 – Supports valid inferences with reference to the source e.g. The population grew steadily from 1948 and multiplied by a factor of four, while immigration has reduced by 1968 to one sixth of the 1949 rate. This would appear to suggest that population rise now depends more on natural birth rate rather than immigration. Reduction in immigration would appear to show that many of the Jews who wished to settle in Israel have already done so. [5–6]
- (ii)** Level 0 – No evidence submitted or response does not address the question. [0]
- Level 1 – Agrees OR disagrees, unsupported from the source. [1–2]

- Level 1 – Useful/not useful – Choice made on the basis that one source is more detailed/gives more information, but does not specify what information. [1]

- (b) (i) Level 0 – No evidence submitted or response does not address the question.
- Level 1 – One mark for each valid element to a maximum of two e.g. Colonisation of agricultural settlements (first in 1909). Often sited in unpromising areas to regain land from arid areas, and to increase food production etc. [1–2]
- (ii) Level 0 – No evidence submitted or response does not address the question. [0]

- Level 2 – Describes issues. Award an extra mark for each valid issue which is described in additional detail e.g. After Mecca and Medina, the Al-Aqsa mosque is the third most holy site for Islam. Since Jerusalem was the capital of King David's kingdom (c. 1000 BC), it has been the epicentre of Jewish cultural, social, religious consciousness. UNO wanted the city to have international status (1947), but after the war 1948/9, the western half fell under Israeli control, and the eastern half, including the Wailing Wall, came under Jordan. After the Six Day War Israel occupied the whole area. Bone of great contention in any peace negotiations. [2–4]
- (iii) Level 0 – No evidence submitted or response does not address the question. [0]
- Level 1 – Single reason. One for the reason, one for the explanation. [1–2]
- Level 2 – Multiple reasons. One for each reason, one for each reason explained e.g. Early promises e.g. Balfour Declaration, and developing Zionism, appeared to make the Jews feel they had a right to a homeland. After WWII, sympathy and the Jewish lobby in the USA meant that a Jewish state could exist in Palestine. GB opted out of its mandate and UNO plans were heavily 'influenced' by USA. The unity and determination of the Jews to resist all attempts to eradicate Israel: the disunity among Arab states – some totally against Israel like Iran and Syria, while others like Jordan and Egypt have reached an accommodation of sorts. Support of USA. [2–6]

(iv) Level 0 – No evidence submitted or response does not address the question.

Level 1 – Simple assertions.

Yes, they always stick together.

Level 2 – Explanation of unity OR lack of unity, single factor given e.g.

Unity Once the state was established, it would appear that one thing all Israelis agreed upon was the defence and maintenance of the state. The Israelis have resisted assaults and defended 'their' territory vigorously and efficiently throughout the period 1945–1994 against Arab states and from a variety of Palestinian and foreign sponsored terrorist groups.

Lack With evidence from both religious and political groups in Israel, it would appear that the right wing religious parties hold the Likud Party in check. They wish to make no compromise with Arabs/Palestinians. More radical and centre groups e.g. Labour Party have attempted to make deals and accommodations. There are exceptions e.g. Begin at Camp David. A very complicated question.

[2]

Level 3 – Explanation of unity OR lack of unity with multiple factors. Allow single factors with multiple reasons.

OR Undeveloped suggestions on BOTH sides of the argument (annotate BBB – Balanced but Brief). [3–5]

Level 4 – Answers that offer a balanced argument.

- Yes The authorities were determined to prevent association, trumped up charges from inappropriate laws to seal conviction and punishment as a warning to others etc.
- No Case showed that there were no appropriate laws against association, so authorities are attempting to intimidate; this intimidation does not appear to be working as Loveless is writing about it and exposing the conduct of the trial just 3 years later. [3–5]
- Level 3 – Agrees AND disagrees, supported from the source. Addresses the issue of 'How far?' [6–7]
- (iii) Level 0 – No evidence submitted or response does not address the question. [0]
- Level 1 – Useful/not useful – Choice made on the basis that one source is more detailed/gives more information, but does not specify what information. [1]
- Level 2 – Useful/not useful – One source is from a resolution, the other is from an individual so they could both be biased/unreliable. [2]
- Level 3 – Choice made on the nature or amount of information given. Must specify what information. [3–5]
- Level 4 – Choice made on the grounds of reliability.
Discussion of utility must be made on valid evaluation of source(s) in context. Include at this Level answers that cross-reference between A and B to show reliability.

- (ii) Level 0 – No evidence submitted or response does not address the question. [0]

Charged under the 1797 Act which was clearly not intended for this purpose – was introduced to prevent mutiny in the Navy. Sentenced to 7 years transportation. Outcry. Released and returned in 1838. [2–4]
- (iii) Level 0 – No evidence submitted or response does not address the question. [0]
- Level 1 – Single reason. One for the reason, one for the explanation. [1–2]
- Level 2 – Multiple reasons. One for each reason, one for each explanation e.g. Fear that they would force up wages and bring ruination to businesses; thought that unions and their powers would bring revolution; unions would change the workers status and they would no longer be servile and know their proper place in the scheme of things etc. [2–6]
- (iv) Level 0 – No evidence submitted or response does not address the question. [0]
- Level 1 – Simple assertions.
No, if you were poor, you stayed poor. [1]
- Level 2 – Explanation of benefit OR lack of benefit, single factor given e.g.
- Ben More jobs and often higher wages than in agriculture or the domestic system. Housing and shops often provided by the factories; chances of promotion or self employment later; the creation of wealth benefited the whole country and so all society benefited.
- Lack Employers' wealth increased out of all proportion to the workers; insecurity of jobs; harsh conditions (although a few workplace laws had been passed by 1850); growth in slum housing; dangers to health of factories and housing; no unions had survived as yet to plead the workers rights etc. [2]
- Level 3 – Explanation of benefit OR lack of benefit with multiple factors. Allow single factors with multiple reasons.
- OR** Undeveloped suggestions on BOTH sides of the argument (annotate BBB – Balanced but Brief). [3–5]
- Level 4 – Answers that offer a balanced argument.
BOTH sides of benefit AND lack of benefit must be addressed. [6–8]

See developments in early twentieth century – GB allies with Japan; fall of the Manchu dynasty.
- Not Largely in the minds of the ruling class in China; refused to accept that she was now weak and a second-rate power; tried to maintain a strong face to other countries – largely seen as arrogance etc. [2]
