UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS International General Certificate of Secondary Education

MARK SCHEME for the October/November 2010 question paper

for the guidance of teachers

0417 INFORMATION AND COMMUNICATION TECHNOLOGY

0417/13

Paper 1 (Written), maximum raw mark 100

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

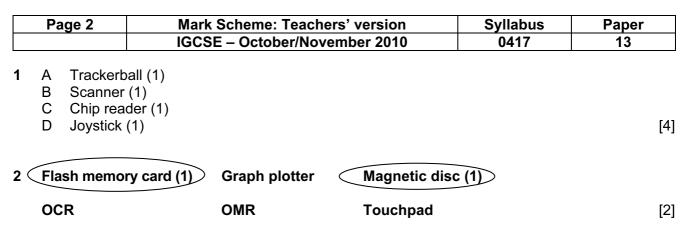

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2010 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

1

3

	True	False	
An Internet browser is used to look at pages on the world wide web	~		(1)
Desk top computers don't have hard disk drives		~	(1)
DTP software can be used to produce magazines	~		(1)
Measurement software is used for data logging	~		(1)
Sensors are output devices		~	(1)
			[

4	(a)	A graph plotter	is used in CAD applications to produce very large printouts.	[1]
	(b)	A multimedia projector	is used to display data from a computer onto a very large scre	en. [1]
	(c)	A pressure sensor	is used to send data to a microprocessor controlled wash machine.	ing [1]
	(d)	A touchpad	is an input device found in laptops.	[1]
	(e)	A microphone	is used to record voices for use in presentation software.	[1]

5

Word processing software	\checkmark	(1)
Measuring software		
Control software		
Spreadsheet software	✓	(1)
Animation software		
Database software	\checkmark	(1)

6 LEFT 90 *REPEAT* 5 *FORWARD* 50 **RIGHT** 72 **END REPEAT**

1 mark for each correct statement

 7 Three from: More than one table/file Tables are linked Primary keys Foreign keys Less duplication of data Data from more than one table can be used in the same report

8

9

	True	False		
On-line processing requires a transaction file to be created		~	(1)	
Batch processing results in immediate updating of records		~	(1)	
Real time processing requires immediate response from a computer	~		(1)	
On-line processing is needed for operating ATMs	~		(1)	
				[4]
(a) Y or N				[1]
(b) Full Circle/Sanditon/Vanity Fair/The Old Curiosity Shop				[1]
(c) 20/11/10 or 18/11/10 or 16/12/10 or 23/11/10				[1]
(d) 10 or 15 or 20				[1]

[4]

10

	True	False	
A large hall has to be hired for video conferences to take place		~	(1)
Documents can be shared amongst participants in a video conference	~		(1)
A microphone/headset is an essential item of equipment in video conferencing	~		(1)
A codec is needed to convert data for transmission during a video conference	~		(1)
	1	4	[4]

11 So that users can transfer data from one computer to another/to backup files/security dongle (1) To enable large high definition/quality video files to be recorded (1) So that users can have quick access to their data/software/so that software can be stored (1) [3]

12 Four from:

Questions appear on screen Questions about geological profile are asked Geological profile is typed in Answers to questions are typed in Further questions appear on screen Suggested probabilities of oil are output Suggested depths of likely deposits are output Predictions of geological strata/contour maps are output Probabilities of finding oil are output

- 13 To produce high quality high volume output
 To print on multipart forms
 To move objects in computer controlled system
 To output voiceovers
 Laser printer
- 14 (a) Network card
 - (b) Two from: Reduced cost of cabling Safer – won't trip over wires Easier to connect other devices to the network Some situations make it impossible to use wired networks Makes the computer portable as long as it's within range of the wireless access point/use it anywhere within range of the WAC [2]

		IGCSE – October/November 2010	0417	13
20	Six from:			
-	Laser printe	r advantages		
	Fast output			
	Relatively qui	et		
	Cheap to buy	compared to dot matrix printer		
		r disadvantages		
	More expension	ive running costs than dot matrix		
	Inkjet printer	r advantages		
	Faster output	than dot matrix printer		
	Relatively qui	et compared with dot matrix printer		
	Cheap to buy			
	Inkjet printer	r disadvantages		
	Ink more exp	ensive than dot matrix		
	Ink needs cha	anging regularly on long print runs		
	Difficult to pri	nt a sealed secure payslip		
	Dot matrix p	rinter advantages		
	Cheaper runr	ning costs		
		aper feed available		
	Can print mul			
		ough a payslip cover		
		carbon copies		
		s not needed when printing payslips		
		rinter disadvantages		
	More expens	ive to buy		
	Noisy			
	Relatively slo	W		
	One mark ava	ailable for reasoned conclusion		
	Points which	are repeated will only gain credit on the first mention		[6]
4	Eour from			
1		as to the wrong address/number		
		go to the wrong address/number	orkor/no nood	to do printouto
		a unlikely to be intercepted by another office w		to do printouts
	therefore mor	'e secure		

Quicker/Easier to transmit message/Received quicker by person addressed to Attached documents are better quality Multimedia attachments can be sent You can send from anywhere there is an internet connection Easier to send to several recipients at the same time Email has lower running costs such as paper/ink Email is more environmentally friendly Email attachments can be edited by recipient easier than fax

More people have access to email than fax machines
