## INFORMATION AND COMMUNICATION TECHNOLOGY

0417/12

Paper 1

May/June 2011

2 hours

Candidates answer on the Question Paper.

No Additional Materials are required.

## **READ THESE INSTRUCTIONS FIRST**

Write your Centre number, candidate number and name on all the work you hand in.

Write in dark blue or black pen.

You may use a soft pencil for any diagrams, graphs or rough working.

Do not use staples, paper clips, highlighters, glue or correction fluid.

DO NOT WRITE IN ANY BARCODES.

No marks will be awarded for using brand names of software packages or hardware.

Answer all questions.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [ ] at the end of each question or part question.

For Examiner's Use

This document consists of 12 printed pages.

	-				
Name the output devices	A, B, C and D using the	e words from the list			
Α	В	С		D	
			1-1-2-1-1		
CRT monitor	Dot matrix printer	Inkjet printer	Moto	r	
Multimedia projector	Plotter	Speakers	Track	cerball	
Α	l	3			
С	l	D		[4	
Ring <b>two</b> items which are	e storage media.  DVD RAI	м	Keybo	oard	
Mouse	Memory	stick	Senso	or	
				[2	]
Tick <b>TRUE</b> or <b>FALSE</b> ne.	xt to each of these state	ments.			
			TRUE	FALSE	
Measuring software is u	sed to write letters				
DTP software is used to	create magazines				
PDAs cannot be used u	nless plugged in to an e	lectricity socket			
Database software is us	ed to create slide shows	5			
A working knowledge of	HTML is helpful when o	creating web pages

7 The Regionalisa Bank sends messages to its customers. Sometimes the messages are sent by fax and sometimes by email. Tick whether the following statements are **TRUE** or **FALSE**.

	TRUE	FALSE
A faxed message is more private		
An emailed message arrives with the customer more quickly		
A faxed document can be used for legal purposes		
An email attachment can be edited electronically		

[4]

8	Describe what real time processing is, using a microprocessor-controlled central heating system as an example.	For Examiner's Use
	[4]	
	[+]	
9	Car mechanics use expert systems to diagnose car faults.	
	(a) Describe how an expert system diagnoses these faults.	
	[4]	
	(b) Give two other uses of expert systems.	
	(i)	
	(ii) [2]

**10** The manager of a supermarket uses a database to store data about the food he sells. This is part of the database.

For Examiner's Use

Food type	Number in stock	Re-order (Y/N)	Last order received
Potato flakes	123	N	23/10/10
Chocolate bar	158	N	25/10/10
Beefburgers	135	N	24/10/10
Gravy	89	Υ	17/10/10

For each of the following fields describe an appropriate validation check. You must describe three different validation checks.

(a)	Number in stock		
(b)	Re-order (Y/N)		••••
(6)			
(c)	Last order received	d	
			 [6]
			[~]

11 Draw four lines on the diagram to match the use to its most appropriate input method.

Use Input method

To input text from a printed document Bar code reader

To input data from a bank cheque Chip reader

To input data from a bank card MICR

To input data about a product at a POS OCR

12	The manager of a company wants to improve the security of the computer network. She has decided to use authentication techniques so that employees can identify themselves to the system.  Name <b>three</b> authentication techniques and describe how each technique would help keep the data more secure.
	Technique 1
	Technique 2
	Technique 3
	[6]
13	The prolonged use of computers can lead to health and safety problems.
	(a) List <b>two</b> health problems that may be caused by the prolonged use of computers.
	1
	2
	[2]
	(b) List two safety problems that may be caused by the use of computers.
	1
	2
	[2]

14	A group of international schools wish to hold a video conference instead of a face to face meeting.
	Discuss the advantages and disadvantages to a school of using video conferences.
	Advantage 1
	Advantage 2
	Advantage 3
	Disadvantage 1
	Disadvantage 2
	Disadvantage 3[6]
15	Joseph wants to type in details of new customers into a database. He needs to design an on-screen input form.
	Describe <b>four</b> navigation aids that would be part of a well designed on-screen input form.
	1
