Paper 2 Practical Test A

May/June 2016

MARK SCHEME
Maximum Mark: 80

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2016 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

® IGCSE is the registered trademark of Cambridge International Examinations.

This syllabus is approved for use in England, Wales and Northern Ireland as a Cambridge International Level 1/Level 2 Certificate.

C:\BROKER.doc

and is set to overtake the US with eight more new builds this year than the US. Greece takes the tenth place this year, pushing France out of the list. This may be as a result of one large French builder temporarily stopping current and future superyacht projects to focus its strategy on commercial and naval contracts.

BUSINESS REVIEW

Our company had a strong first quarter and spring has seen a promising rush of activity in the superyacht sales market. In six weeks we sold five yachts with a total asking price of over €40 million. The yachts were purchased by buyers from the US, UK and Germany; these markets had proved quieter during the downturn prior to 2013. There was also a surge in charter bookings for summer 2016 which is up by 15% compared to last year. This is largely due to the continued strength of chartering in Europe and an increasingly buoyant market in the Americas where we have several yachts to charter. Growing markets for charter bookings include non-traditional markets such as Mexico, Brazil and South East Asia. There are good signs that the economic upturn is starting to take hold.

This year we have had successful representation at several boat shows including the Miami Yacht & Brokerage Show, the Dubai International Boat Show, the Palma Beach International Boat Show and the Palma Superyacht Show.

SALES

Selling large luxury yachts demands professional expertise and extensive market knowledge. We are the world leader in new and used yacht sales, specialising in the sale and purchase of luxury yachts over 24 metres. Our team visits hundreds of yachts every year and is in regular contact with thousands of yacht owners. Our advanced database allows us to bring buyers and sellers together in today's global market. A summary of our success so far this year follows. The year started well when we represented the buyer during the sale of the spectacular 50 metre motor yacht Bethany. In March we sold the 30.5 metre motor yacht Luck be a Lady which was built in 2001. Holden Yachting represented the buyer. This yacht had sleek exterior styling and bright and spacious accommodation for up to 10 guests in five staterooms. The interior had benefited from a number of refits.

We followed this with the successful sale of Jocelyn, a 33 metre sailing yacht originally built by US superyacht yard Palmer Johnson. Jocelyn underwent a comprehensive refit in 2010 which updated virtually every system aboard, including cosmetics, with new Awlgrip on all surfaces, all new teak decks and an exhaustive list of upgrades that cost in excess of \$2 million.

We also sold Daisy, a 60.55 metre Feadship Royal Van Lent. She was built in 1979 as Cooper II and later renamed Sherman, before being purchased by her current owners and renamed Surrey Spree. When Surrey Spree was launched in 1979 she was the second largest Feadship ever built. Over 30 years later, she still remains an impressively large yacht with plenty of space and timeless design.

We more recently sold the 50 metre Jacob of London, which received an extensive €4 million refit this year. With accommodation for 14 guests in a full beam owner's stateroom and 6 further guest cabins, Jacob of London has a proven track record as a highly successful charter yacht.

C:\BROKER.doc

CHARTERS

A Tawara Yacht charter is the

ultimate holiday experience and the perfect way to explore some of the most beautiful and remote parts of the world. It is hardly surprising that our chartering business goes from strength to strength. A fleet of over 90

essential. The market for chartering larger yachts continues to grow as fewer people are investing in ownership and, as a result, more are wanting to charter. Ownership's loss is charter's gain.

CONCLUSION

It has been a strong start to the year and we are seeing signals across the market that the charter business will continue to increase this year. Customers want a wide choice of yachts to choose from and we provide some of the finest available on the market today. With a number of vacht sales, we are also seeing positive signs within the

We have represented both the buver and seller in actions, showing our strength in finding buyers and terests of sellers. We look forward to continued nd half of the year.

When you next access the secure area of our website you will be asked to create a new password. Passwords provide the first line of defence against unauthorised access and in an effort to help safeguard your information we offer the following guidance on selecting a strong password.

An example of a strong password is: caseKr0yw3^

Three features which make this password strong a

- mixed upper and lower case
- 2 at least 1 number and 1 symbol
- at least 8 characters long

We value the trust of our customers and apologise a have caused you. We are taking every possible ster occurring in the future.

Yours sincerely

1 example of a strong password eg

caseKr0vw3[^]

3 features identified which make this example a strong password eg,

mixed upper and lower case

- at least 1 number
- at least 1 symbol
- at least 8 characters long
- random characters
- not family names, dobs etc.

1 per point, ignore spelling.

Evidence Document

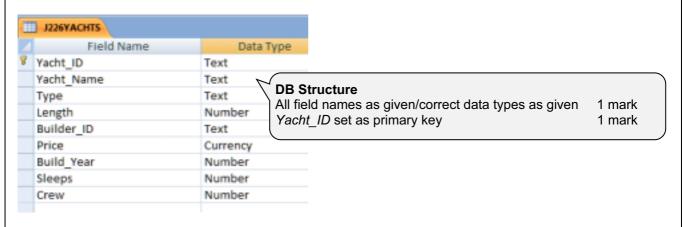

Step 15 – **EVIDENCE 5** – Evaluation of chart choice, examples with reasons eg:

- Comparative bar chart most suitable as 3 data series to compare
- Visually easy to compare differences
- Line graph not suitable as not continuously variable data
- Pie chart not suitable as shows data as a percentage of a whole, can't compare as on one data series
- Stacked bar chart cumulative data, not comparative, not direct comparison
- 1 mark for explaining choice of chart
- 1 mark for comparison with another chart

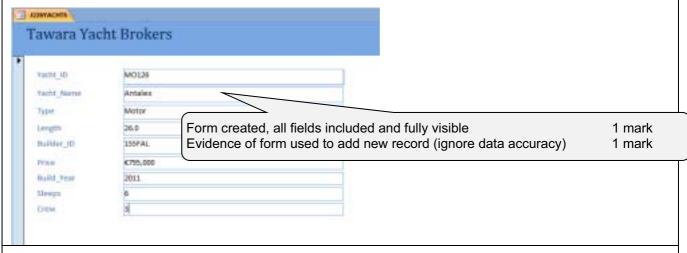

[2 marks]

Step 25 - **EVIDENCE 6 -** Database field structure screen shot here:

Step 27 – **EVIDENCE 7** – Form completed with new record screen shot here

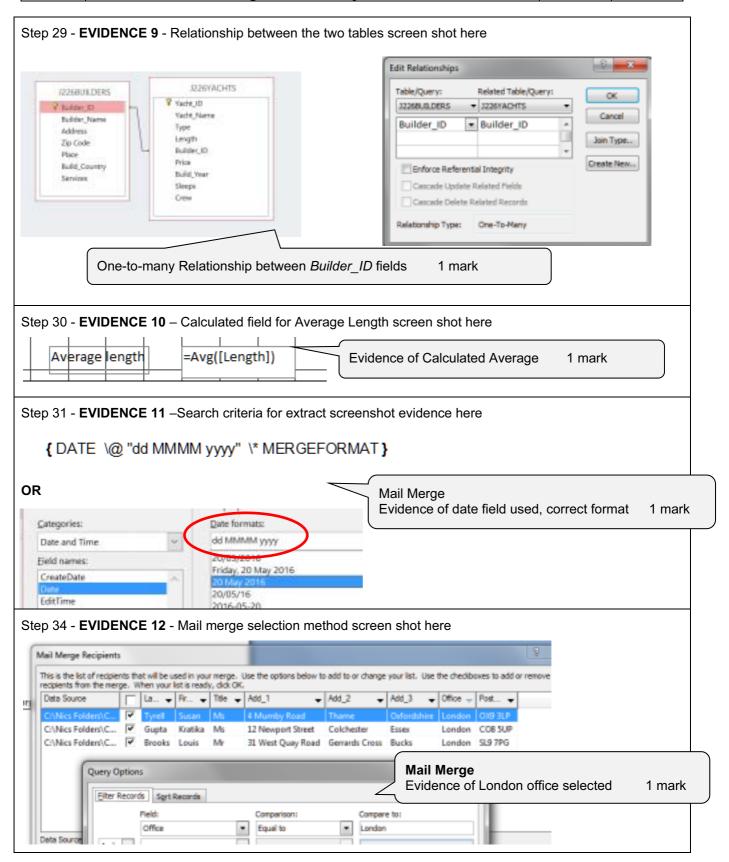

Step 28 - EVIDENCE 8 Evaluate the design of your data entry form.

Evaluation of form eg:

- Consistent layout or formatting
- Appropriate use of title
- Lack of instructions on filling in form
- No navigation buttons
- Should contain descriptive labels, not just field names
- Inappropriate space for data added
- Unsuitable field lengths for this data
- Appropriate spacing between fields/appropriate use of white space
- Form fills available space/window
- Font size/legibility/colour schemes [2 marks]
