Paper 2 Practical Test A

March 2018

MARK SCHEME

Maximum Mark: 80

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the March 2018 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

© IGCSE is a registered trademark.

This syllabus is approved for use in England, Wales and Northern Ireland as a Cambridge International Level 1/Level 2 Certificate.

This document consists of **22** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

New Campus News

Good News!

Step 6 Title **New Campus News** 1
TU-Title style applied 1

Produced by: Name

We are now beginning our move to the new campus which is located just off the harbour road in Tawara Bay. This will

on which has been planned in detail to ensure the minimum of disruption to teaching, learning and research. For the first phase, the new campus will be located in the town until Phase 3 is completed.

Steps 9 and 11 Text **Good News!** entered 1
TU-Subheading applied to all sub head text 1

Step 8 Subtitle **Produced by: Name** 1
TU-Subtitle style applied 1

The first phase is now complete and in September we will begin to use the new science and technology park.

Moving to the new campus

Phase one complete

As students and staff will know only too well, we have spent years in cramped accommodation in various buildings on the Hills Road in the centre of town with all the congestion on the streets and inadequate parking. Students will still find they can cycle to the new campus and there is ample parking designed for bicycles. Public transport by bus and the new tramway will connect the town to the bay, while staff parking will be allocated on site.

In the first building phase which is now complete, we have a new science park

Step 10 Change to 2 columns with 2 cm gap 1
TU-Body style applied 1

The new development is on the site of the former Tawara University Press and known as the "triangle" due to the site being confined within

explore properties of materials down to the molecular, atomic and subatomic levels. There will be close collaboration between departments such as biology and engineering to develop new targeting and delivery of more effective drugs against intractable diseases. These teams will be closely linked on the new campus. This will be opened by the president of Tawara Territory for the first courses in September. We are now making final preparations for the move.

the bounds of the harbour, the sea and the rail head. That company has moved to new premises further along the bay and is focussing on digital media materials. While they do not see printed books as a thing of the past, many interactive learning materials will become the focus of their activities. They kindly donated the site to the University for our current expansion.

The digital college

also provide access to printers around the site.

Safe Internet usage

You will use the internet for much of the work you do. When you use the internet your web activity is stored by the university and your browser keeps a record of the sites you have visited in its history. Any websites you have visited are stored on the university system and are visible to university staff. When you enrol for your course you will need to sign and adhere to a safe internet usage agreement.

The rules of the safe internet usage are:

- Answer 1
- Answer 2
- Answer 3
- Answer 4

A fully developed agreement will be made available for new students and researchers for the start of the autumn term.

Step 13 Text entered **The rules of the safe internet usage are:** entered as a new paragraph in TU-Body style 1
Step 14 Four rules suggested TU-Bullet style applied 4

Contributions to this agreement will be welcomed by the heads of department who are:

Name		Department
Kularia	Bhushan	Chemistry
Thakur	Gunwant	Electrical Engineering
Jobalia	Shailendra	Electronics
Singporewala	Gnanisha	Geography
Sheth	Pramod	Hindi
Abani	Sujith	History
Jain	Bhavesh	Literature
Shah	Zoeb	Maths
Assie	Neeraj	Mechanical Engineering
Thakkar	Nilesh	Physics

Step 17 Document and paragraphs complete
Spacing is consistent
No widows or orphans
No split lists or tables
No blank pages
columns balanced at top 1

Rules – four from

- Only give personal details / account details to secure websites
- Install up to date anti-spyware/antivirus software
- Switch on firewall
- Always keep gaming friends “in game”
- Do not disclose your location
- Turn off webcam after use / cover camera
- Never accept (social media) contact requests from people you do not know
- Only post content or photos you would not mind showing to your family
- Limit numbers of friends
- Set privacy to friends only
- Use an alias/nickname rather than real name
- Don't meet people you have only spoken to online
- Make sure websites being visited for transactions can be trusted (https or the padlock sign when using search engines)
- Only use websites recommended by teachers
- Never reply to spam emails
- Don't open attachments from unknown sources

Tawara University Faculty of Engineering

Memo

To: Amit Shetty

University Number: TU200

Date: 9 May 2018

Subject: Welcome to new graduates

From Head of Department: A Candidate CN999 9999

Step 27 Print 4 relevant memos only 1

Hello Amit

Welcome to the department of Physics where you will begin your work on your Post graduate research project. I hope you will settle in quickly to the new routines of the department. Your office will be located in the Science and Technology building on the new site. You will receive an annual stipend of 8000. This will increase annually in line with the University's agreed pay scales. If you have not already done so, you should supply your bank details to the department bursar who will arrange for your salary to be paid monthly into your bank account.

You have been allocated an internal telephone number of 6529.

You should arrange to attend the new graduates introductory meeting and induction which will be held in room 101 at 2.00 pm next Wednesday.

Tawara University

Memo

Memo

To:	{ MERGEFIELD First_Name } { MERGEFIELD Family_Name }
University Number:	{ MERGEFIELD Staff_ID }
Date:	{ DATE \@ "dd MMMM yyyy" * MERGEFORMAT }
Subject:	Welcome to new graduates
From Head of Department:	Name, Centre number, candidate number

- Step 26 Display Staff_ID and salutation fields 1
- Display date field code with dd MMMM yyyy format 1
- Display all fields in body of memo 1
- Text replaced with candidate details 1

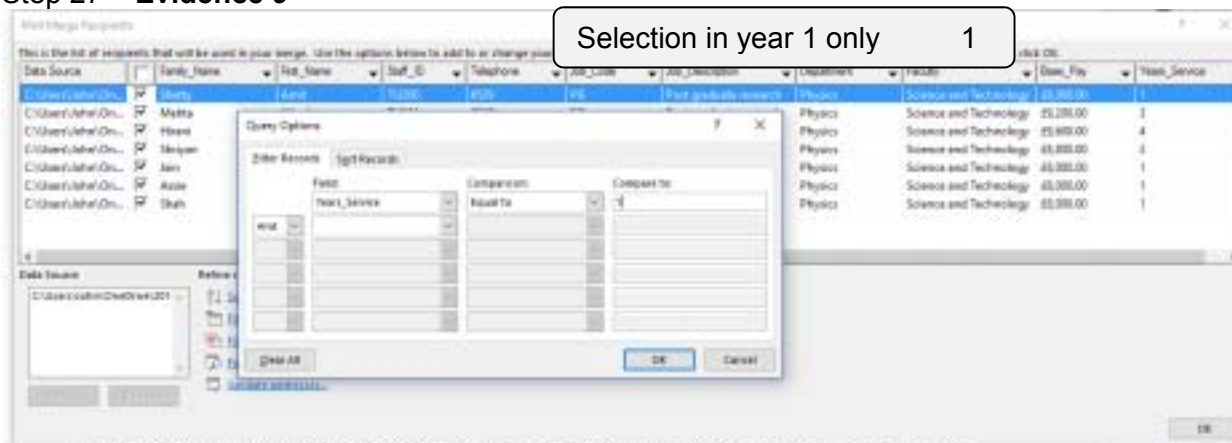

Hello { MERGEFIELD First_Name }

Welcome to the department of { MERGEFIELD Department } where { MERGEFIELD Job_Description } project. I hope you will settle in quickly to the new routines of the department. Your office will be located in the { MERGEFIELD Faculty } building on the new site. You will receive an annual stipend of { MERGEFIELD Base_Pay }. This will increase annually in line with the University's agreed pay scales. If you have not already done so, you should supply your bank details to the department bursar who will arrange for your salary to be paid monthly into your bank account. |

You have been allocated an internal telephone number of { MERGEFIELD Telephone }.

You should arrange to attend the new graduates introductory meeting and induction which will be held in room 101 at 2.00 pm next Wednesday.

Step 27 – Evidence 9

Step 28 – Evidence 10**Advantages**

Only 1 letter has to be typed; saving time

Evaluation of mail merge max 4

Only the master letter / data source has to be proofread; therefore saving time.

Data source may already exist which saves time

Can select on any criteria which saves time creating it

New data sources can be added/used year on year

Faster than typing 6000 individual letters/sending 6000 individual emails

Disadvantage

If errors are in the master letter then 6000 incorrect letters are sent

If a fault is identified AFTER the mailmerge then all hard copy will be wasted; taking up time and money

Slower checking/typing 6000 individual personalised letters than just one

If there are errors in the data source then they may not be checked until after mail merge then the process becomes more difficult

Higher level of staff skill/specialised training required

Accept reasoned conclusion for 1 mark

You must have at least one advantage and one disadvantage to gain full marks

Optional additional evidence for presentation – **Evidence 11 Optional**

E.g. animations or transitions, etc.
