Paper 2 Practical Test A MARK SCHEME Maximum Mark: 80

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2019 series for most Cambridge IGCSE<sup>™</sup>, Cambridge International A and AS Level components and some Cambridge O Level components.

October/November 2019

#### **Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- · the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always whole marks (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit
  is given for valid answers which go beyond the scope of the syllabus and mark scheme,
  referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

format, for the education of as many people as possible. He planned to establish an electronic public library of 10,000 books (this goal was reached in October 2003) created using plain text to make them as easy as possible to download and view on devices. He has devoted his entire life to this project.

## Subheadings (7)

Online publishing became a cheaper option than printed books for educational, academic and scientific publications. It also enabled regular updates to include the latest information without waiting for a new printed edition. Some universities began to create their own textbooks online with papers and comments from professors.

## **DIGITAL READING**

The emerging market of online bookstores selling only digital books took off in 2003. It took a while to convince publishers that books should be simultaneously published as a print book and a ligital book For the first time last year publishers

igital book sales than from

ading e-books was not a activity. E-books were b read on desktop computer ed in an office environment. 8 when small, dedicated vices were launched. These pensive and had a limited ailable. As a result growth esponses were mixed with nark

Gutenberg had 1,000 e-books with an average output of 36 books per month. Ten years later it had over 20,000 e-books in 50 languages with a production rate of 340 new books each month, 40 mirror sites worldwide, and tens of thousands of books being downloaded every day.

The first electronic versions of print newspapers and magazines began to appear in 1996 with partial or full versions of the latest issues available freely or through subscription. Online versions provided a wealth of additional information to help readers understand the issues with links to maps, political and economic data, photographs, and

Knook	Bambi Publishing	2009	
Cabbage Notepad	Cabbage	2010	
Hobo e-reader	Rasputen Hobo	2010	

Following the successive failures of first generation e-readers, the devices were expected to disappear from the market. However, the advent of E-ink technology transformed the quality of the reading screens. New generation e-readers were released with improved E-ink technology screens which provided a reading experience similar to the traditional printed book. With the price of reading devices and e-books significantly reduced, more content available and better retail distribution, the e-reader was given a new lease of life.

In 2007 Tawara launched a dedicated e-reader called the Phablet which became the most successful electronic reading device and transformed this digital market. The Phablet had long battery life, built-in memory and an SD card providing plenty of book storage, a screen using the E-ink technology, and page-turning buttons.

Unlike the Sonny Reader there was no nee computer as books were purchased onlin downloaded via a 3G wireless connection. TI Phablet release sold out in less than six hou the sales of e-books doubled between 200 2008.

## **READING DEVICES**

Commercially produced and sold e-books are usually intended to be read on a dedicated ereader device. However many people now read ebooks on their mobile devices preferring multifunctional devices over dedicated e-reader brands. In 2016 surveys showed that mobile phones and tablets overtook e-readers as the most common electronic reading devices. Depending on the format of the book, almost any computer device that features a controllable viewing

can be used to read e-books including:

- Genicalcu Sonny, Knook, Hobo
- netbooks and laptops
- personal computers
- smartphones
- tablet computers including the Notepad

There are many e-reader applications freely available which allow the reading of e-books on mobile devices independently of a dedicated e-book device.

Tawara Book Club	
C/o Community Library 120 Gonville Square CAMBRIDGE CB1 3JC	
25-Oct-19	
Dear «Group» Book Club Member	
Tawara Book Club – Winter Reading	
Tawara Book Club is pleased to confirm details of the reading material selected for the coming quarter. These books have been chosen based on reviews from newspapers and magazines, recommendations from other reading clubs and prize-winning book lists. If you wish to nominate a book for the group to read in the future, please bring your suggestions to the meeting.	
The book chosen for <b>*Month*</b> is <b>*Book*</b> , by <b>*Author*</b> . I hope you will find this a stimulating and enjoyable read. You may find it useful to make short notes on a postcard, or use post-it notes to identify sections of the book you think are worthy of group discussion. If you are reading on an e-book, use the highlighter or note function to record your thoughts to share with the group.	
Our next meeting is arranged for:	
«Day», «Date» at «Time» hours.	
The meeting will be held at <b>«Venuex</b> . Please try to finish the <b>«Month»</b> book before we meet.	
Other meeting business: Notes.	
Yours faithfully
