

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.

Write in dark blue or black pen.

Do not use staples, paper clips, highlighters, glue or correction fluid.

You may use a pencil for any diagrams or graphs.

DO NOT WRITE IN ANY BARCODES.

Answer all the questions.

Unless instructed otherwise, give your answers exactly or correct to three significant figures as appropriate. Answers in degrees should be given to one decimal place.

For π , use your calculator value.

You must show all the relevant working to gain full marks and you will be given marks for correct methods, including sketches, even if your answer is incorrect.

The number of marks is given in brackets [] at the end of each question or part question.

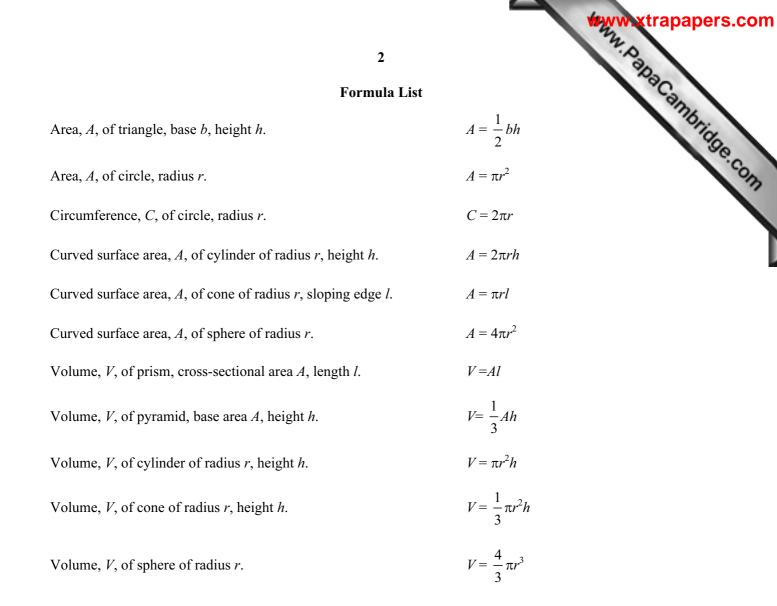

The total number of marks for this paper is 96.

This document consists of **16** printed pages.

| | 3 | |
|----|---|-----|
| | Answer all the questions. | Cal |
| A | ar is filled with 120 cream toffees, 90 liquorice toffees and 60 chocolate toffees. | |
| (a | 3 Answer all the questions. ar is filled with 120 cream toffees, 90 liquorice toffees and 60 chocolate toffees. How many more cream toffees are there than liquorice toffees? | |
| | Answer(a) | [1] |
| (ł | Find the total number of toffees in the jar. | |
| | Answer(b) | [1] |
| (0 | One toffee is chosen at random. | |
| | Find the probability that it is | |
| | (i) a liquorice toffee, | |
| | Answer(c)(i) | [1] |
| | (ii) not a cream toffee, | |
| | Answer(c)(ii) | [1] |
| | (iii) a mint toffee. | |
| | Answer(c)(iii) | [1] |
| (¢ | Sid is 14 years old, Ren is 15 years old and Tarrik is 16 years old. They share all the toffees in the ratio of their ages. | |
| | Calculate the number of toffees that Ren receives. | |
| | | |
| | | |
| | | |
| | Answer(d) | [2] |
