Location Entry Codes

As part of CIE's continual commitment to maintaining best practice in assessment, CIE uses different variants of some question papers for our most popular assessments with large and widespread candidature. The question papers are closely related and the relationships between them have been thoroughly established using our assessment expertise. All versions of the paper give assessment of equal standard.

The content assessed by the examination papers and the type of questions is unchanged.

This change means that for this component there are now two variant Question Papers, Mark Schemes and Principal Examiner's Reports where previously there was only one. For any individual country, it is intended that only one variant is used. This document contains both variants which will give all Centres access to even more past examination material than is usually the case.

The diagram shows the relationship between the Question Papers, Mark Schemes and Principal Examiners' Reports that are available.

Question Paper

Introduction First variant Question Paper Second variant Question Paper

Mark Scheme

miroddollon
First variant Mark Scheme
Second variant Mark
Scheme

Principal Examiner's Report

Report
Introduction
First variant Principal
Examiner's Report
Second variant Principal
Examiner's Report

Who can I contact for further information on these changes?

Please direct any questions about this to CIE's Customer Services team at: international@cie.org.uk

The titles for the variant items should correspond with the table above, so that at the top of the first page of the relevant part of the document and on the header, it has the words:

• First variant Question Paper / Mark Scheme / Principal Examiner's Report

or

Second variant Question Paper / Mark Scheme / Principal Examiner's Report

as appropriate.

Paper 1 (Core)

October/November 2008

1 hour

Candidates answer on the Question Paper.

Additional Materials:

Electronic Calculator Geometrical Instruments Mathematical tables (optional) Tracing paper (optional)

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.

Write in dark blue or black pen.

You may use a soft pencil for any diagrams or graphs.

Do not use staples, paper clips, highlighters, glue or correction fluid.

DO NOT WRITE IN ANY BARCODES.

Answer all questions.

If working is needed for any question it must be shown below that question.

Electronic calculators should be used.

If the degree of accuracy is not specified in the question, and if the answer is not exact, give the answer to three significant figures. Give answers in degrees to one decimal place.

For π , use either your calculator value or 3.142.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [] at the end of each question or part question.

The total of the marks for this paper is 56.

For Examiner's Use

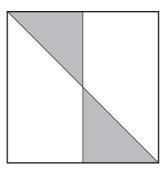

This document consists of **9** printed pages and **3** blank pages.

1 Write down a multiple of 4 and 14 which is less than 30.

Answer	[1]

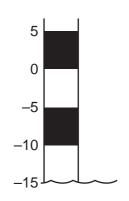

2

Write down the order of rotational symmetry of the diagram above.

Answer [1]

3 On 1st August the level of water in a lake was -15 metres. A month later the level was 2 metres higher. Write down the new level of water.

Answer _____ m [1]

4 The area of a square is 42.25 cm². Work out the length of one side of the square.

Answer ____ cm [1]

5 Expand the brackets and simplify 5x - 6(3x - 2).

Answer [2]

Answer	kr	n [2]

Choose one of the symbols above to complete each of the following statements.

(a)
$$74\%$$
 $\frac{5}{7}$

[1]

[1]

8 Juanita changed \$20 into euros when the exchange rate was €1=\$1.2685. How many euros did she receive? Give your answer correct to 2 decimal places.

Answer €

9 Solve the equation 5x + 2 = 53.

> Answer x =[2]

The length of the River Nile is 6700 kilometres, correct to the nearest hundred kilometres. Complete the statement about the length, L kilometres, of the River Nile.

> $\leq L <$ [2]

		4		13 40 13 50 13 54	3.0
City centre	1115	1230	13 10	1340 Cally	For niner's
Heatherton	1125	1240	13 20	1350	6
Rykneld	1129	1244	1324	13 54	0

	The table above is part of a bus timetable.						
	(a) The 1115 bus left the City centre on time and arrived at Rykneld 2 minutes early. How many minutes did it take to reach Rykneld?						
		Answer(a)	min	[1]			
	(b) Paulo walked to the bus stop at Heatherton as The next bus arrived on time. How many minutes did Paulo wait for the bus		6.				
		Answer(b)	min	[1]			
12	The line with equation $y = 2x - k$ passes throug Work out the value of k .		0).	[2]			
		Answer k =		[2]			
13	Write 0.00578						
	(a) in standard form,						
	(b) correct to 2 significant figures,	Answer(a)		[1]			
	(c) correct to 2 decimal places.	Answer(b)		[1]			

Answer(c)

14 Without using your calculator, work out

 $\frac{5}{8} \div 3\frac{3}{4}.$

Give your answer as a fraction in its lowest terms. You must show **all** your working.

Answer

[3]

15

- (a) Mark clearly on the diagram the point with co-ordinates (3, 2) and label it A. [1]
- **(b)** Write down the co-ordinates of the point B.

(c) Find the gradient of the line *l*.

16 Simplify

For siner's Answer(a)

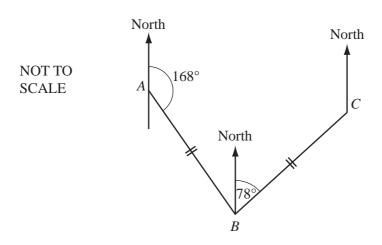

(b) $q^4 \times q^7$,

Answer(b) [1]

(c) $(r^2)^{-3}$.

Answer(c)	 [1]
	 _

17

The diagram shows the route of a fishing boat.

The boat sails from A to B on a bearing 168° and then from B to C on a bearing 078° . AB = BC.

(a) Show that angle $ABC = 90^{\circ}$.

Answer(a)

[1]

(b) Work out the bearing of C from A.

Answer(b) [2]

18 (a) Calculate the volume of a cylinder of radius 50 cm and height 138 cm.

	1/2		
	8		
7		6	۱
		Co.	

Answer(a)	 cm^3	[2]

(b) Write your answer to part (a) in cubic metres.

Answer(b)	 m^3	[1]

19

For the shape above, work out

(a) the perimeter,

Answer(a) cm [2]

(b) the area.

Answer(b) cm^2 [2]

(a) 85% of the seeds in a packet will produce red flowers. 20 One seed is chosen at random. What is the probability that it will **not** produce a red flower?

Answer(a)	 [1]

- **(b)** A box of 15 pencils contains 5 red, 4 yellow and 6 blue pencils. One pencil is chosen at random from the box. Find the probability that it is
 - (i) yellow,

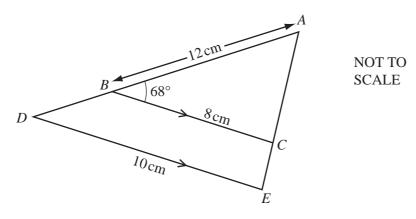

Answer(b)(i)	[1]
111151101 (0)(1)	 L T

(ii) yellow or blue,

$$Answer(b)$$
(ii) [1]

(iii) green.

21

In the diagram BC is parallel to DE.

(a) Complete the following statement.

(b) AB = 12 cm, BC = 8 cm and DE = 10 cm.Calculate the length of AD.

Answer(b)
$$cm [2]$$

(c) Angle $ABC = 68^{\circ}$. Calculate the size of the reflex angle at D.

$$Answer(c) \qquad \qquad [2]$$
