## International General Certificate of Secondary Education

Grade thresholds taken for Syllabus 0413 （Physical Education）in the October／November 2012examination．

|  | maximum | minimum mark required for grade： |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
|  | mark <br> available | A | C | E | F |
| Component 11 | 80 | 52 | 38 | 22 | 17 |
| Component 12 | 80 | 52 | 38 | 22 | 17 |
| Component 13 | 80 | 53 | 39 | 22 | 17 |

The threshold（minimum mark）for $B$ is set halfway between those for Grades $A$ and $C$ ．The threshold （minimum mark）for $D$ is set halfway between those for Grades $C$ and $E$ ．The threshold（minimum mark）for $G$ is set as many marks below the $F$ threshold as the $E$ threshold is above it．

Grade A＊does not exist at the level of an individual component．
The thresholds for the syllabus are determined first by adding together the thresholds for the components taken by the candidate．A reduction may be made at the higher grades depending on the correlation of the papers．If the maximum raw marks for the components are not in the weighting／relationship specified in the syllabus，a weighting is applied to arrive at the overall thresholds．The $\mathrm{A}^{*}$ threshold is calculated using the difference between $A$ and $B$ as a starting point．

The maximum total mark for this syllabus is $\mathbf{2 0 0}$
The overall thresholds for the different grades were set as follows．

| Option | Combination of <br> components | $A^{*}$ | A | B | C | D | E | F | G |
