PORTUGUESE		0540/04
Paper 4 Writing		May/June 2020
MARK SCHEME		
Maximum Mark: 50		
	Published	

Students did not sit exam papers in the June 2020 series due to the Covid-19 global pandemic.

This mark scheme is published to support teachers and students and should be read together with the question paper. It shows the requirements of the exam. The answer column of the mark scheme shows the proposed basis on which Examiners would award marks for this exam. Where appropriate, this column also provides the most likely acceptable alternative responses expected from students. Examiners usually review the mark scheme after they have seen student responses and update the mark scheme if appropriate. In the June series, Examiners were unable to consider the acceptability of alternative responses, as there were no student responses to consider.

Mark schemes should usually be read together with the Principal Examiner Report for Teachers. However, because students did not sit exam papers, there is no Principal Examiner Report for Teachers for the June 2020 series.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the June 2020 series for most Cambridge IGCSE™ and Cambridge International A & AS Level components, and some Cambridge O Level components.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

© UCLES 2020 Page 2 of 29

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

1 General Marking Principles

1.1 Crossing out:

- (a) If a candidate changes his/her mind over an answer and crosses out an attempt, award a mark if the final attempt is correct.
- **(b)** If a candidate crosses out an answer to a whole question but makes no second attempt at it, mark the crossed out work.

1.2 For Questions 2 and 3, if the candidate has written an answer in the space provided for that purpose, you should ignore anything written anywhere else, unless:

- (a) there is an indication from the candidate that other material should be considered.
- **(b)** the candidate has continued their answer outside the space provided.
- (c) there is no answer in the space provided.

1.3 Annotation used in the Mark Scheme:

- (a) tc = 'tout court' and means that on its own the material is not sufficient to score the mark.
- (b) BOD = benefit of the doubt and is used to indicate that the Examiner has considered the answer/that part of the answer and judged it to be more correct than incorrect: the benefit of the doubt is given to the candidate and the mark is awarded.

© UCLES 2020 Page 4 of 29

1.4 No response and '0' marks

There is a NR (No Response) option in RM Assessor.

Award NR (No Response):

If there is nothing written at all in the answer space or

If there is only a comment which does not in any way relate to the question being asked (e.g. 'can't do' or 'don't know') or

If there is only a mark which isn't an attempt at the question (e.g. a dash, a question mark).

Award 0:

If there is any attempt that earns no credit. This could, for example, include the candidate copying all or some of the question, or any working that does not earn any marks, whether crossed out or not.

1.5 Optional questions: You must mark all questions attempted by the candidate. Where a question has not been attempted then NR must be entered. (For Question 3 only, after marking the question(s) the candidate has answered, NR is populated automatically when you click on 'Complete'.) Where the candidate attempts more than one of the alternatives in Question 3, RM Assessor will automatically only aggregate the candidate's best result.

1	Faça uma lista em português de 8 coisas que você vê quando está numa escola ou num colégio.	5
	Make a list in Portuguese of 8 things that are found in a school or college.	
	Read all the items the candidate has listed and award marks as follows:	
	 Look through and select the most correct items up to a maximum of 5 Award 1 mark for each correct item up to a maximum of 5 Do not reward <i>ginásio</i> as it was the example. Stop ticking once 5 items have been rewarded Answers should be marked for communication. Award marks for answers wherever they have been written on the page If there is more than one correct answer per line, award a mark for each acceptable item, e.g. <i>professor no quadro branco</i> = 2 ticks If noun is in a phrase, award one tick for correct noun and ignore verb. E.g. <i>O professor está escrevendo</i> = 1 tick. <i>O professor está escribiendo</i> = 1 tick Ignore any verbs, definite / indefinite articles / possessive adjectives etc. Where nouns are usually plural, accept the singular and vice versa. Reject misspelt words which create/suggest a word with a different meaning. The pictures provided on the question paper are only suggestions. The following are suggestions from Minimum Core Vocabulary List. Accept anything which candidate might possibly see in a school or college.

	mari	ard a mark out of 5, according to the generic grade descriptors in the table below. For guidance see <i>Note on using</i> k schemes with Grade descriptors (last page of mark scheme). Be aware of low expectations for top marks (5/5) as pared to expectations for Question 3. Mark positively by recognising what is achieved.	
	5	Straightforward vocabulary and structure. The style of writing is basic, but reasonably coherent. Use of a limited range of verbs, generally successful. More accuracy than inaccuracy.

	2	A few phrases or short sentences are accurate enough to be comprehensible. Very simple sentence structure.

Question 3

Candidates answer 1 question from a choice of 3. Marks awarded as follows:

Communication marks **out of 10**. See general guidance and question-specific comments below.

Language marks **out of 8 for Verbs**. See general guidance and conversion table below.

marks out of 12 for Other Linguistic Features. See general guidance below.

Communication: general guidance for awarding marks

Place up to 2 'numbered' ticks as close as possible to each relevant communication point. Add up the ticks to give a mark out of 10.

Candidates may develop different aspects of their answer by choosing to expand on what they say for different tasks (bullet points). Question specific guidance below clarifies what is minimum expectation for marks. For possible misinterpretations of instructions, contact PE, especially when stronger candidates have responded outside what is expected according to guidance below.

Mark positively. Do not award communication marks to content that is not relevant to tasks, but do not penalise this irrelevance. For content that is completely unrelated to topic and may be a memorised answer, consult Principal Examiner.

Candidates cannot earn more than the maximum of 10 marks for Communication.

All tasks (bullet points) must be attempted. Full marks cannot be awarded if any task (bullet point) has not been attempted. Candidates cannot develop some tasks and leave out others and achieve full marks.

How to award ticks for accurate use of Verbs (Question 3):

- (a) do not tick verbs contained in the 'letter etiquette': appropriate beginnings and endings to letters are considered for reward under Other Linguistic Features. Ex. do NOT reward 'Como vai?', 'Escrevo para', 'Estou escrevendo'
- **(b)** do not tick verbs that are 'lifted' from rubric; specific examples to be agreed on pre- and during standardisation. Give ticks to verbs from the instructions that are used in totally different context.
- (c) Subject (noun or pronoun) + any finite verb
 - both subject and verb must be correct for the verb to score a tick
 - verb must be in the appropriate tense (according to task) to score a tick
 - accents on verbs must be correct in order for a tick to be awarded. NB:
 - * be aware of BP spelling of -ar verbs in Preterite (-amos, not -ámos)
 - * tolerate missing accents except where used to distinguish between two words of different meaning or function

Other linguistic features: general guidance for awarding marks

Award a mark out of 12 for Other Linguistic Features, according to the grade descriptors in the table below. See below the table for further information regarding what should be considered when assessing the candidate's control of structures. For further guidance see *Note on using mark schemes with Grade descriptors* (last page of mark scheme).

11–12	 Uses a wide range of structures effectively; produces longer, fluent sentences with ease. Highly accurate at this level, though not necessarily faultless. Makes effective use of a wide range of vocabulary fully appropriate to the task.
9–10	 Attempts a range of structures with a good degree of success. More complex language usually error-free^^. Uses a variety of relevant vocabulary at this level.
7–8	 In control of simple structures. Varied success with more complex structures. Accuracy is fairly consistent throughout*. Errors may occur when more ambitious language is attempted. Has sufficient vocabulary to add some interest to the writing.
5–6	 Attempts more than basic structures. On balance, the work is more accurate than inaccurate. Straightforward vocabulary relevant to the task.
3–4	 Reliant on basic structures. Some examples of correct language. Meaning usually conveyed. Basic vocabulary.
1–2	A few phrases or short sentences are accurate enough to be comprehensible. Very simple sentence structure.
0	One or two disjointed words or short phrases may be recognisable.

Question Answer Marks

Consider the extent to which the following are used correctly and appropriately when assessing the candidate's control of structures:

- Appropriate use of letter etiquette, including greetings and endings. (It is essential to recognise this under O.L.F. as verbs used in etiquette, openings and ending are not rewarded.)
- Adjectives, including possessives and demonstratives. Also comparatives and superlatives
- Linking words and conjunctions other than e (e.g. por isso, enquanto, embora)
- Subordinate and relative clauses, including use of porque, que, quando, onde, and se
- Time expressions and time clauses with *quando* and *se* (= if)
- All object pronouns, and including word order with interrogatives or when followed by a negative of words such as: *todos, também, enquanto, já, ninguém, etc.*
- Negatives
- Prepositions and adverbs
- Use of por and para
- Indirect or reported speech
- Indefinite pronouns and interrogative pronouns
- Idiomatic (verbal) expressions.

Total for Verbs: 8 marks

Appendix I

Note on using mark schemes with Grade descriptors

It is important that you award marks positively. In order to ensure that you reward achievement rather than penalise failure or omissions, you should start at the bottom of the mark scheme and work upwards through the descriptors when awarding marks.

You should adopt a 'best fit' approach. You must select the set of descriptors provided in the mark scheme that most closely describes the quality of the work being marked. As you work upwards through the mark scheme, you will eventually arrive at a set of descriptors that fits the candidate's performance. When you reach this point, you should always then check the descriptors in the band above to confirm whether or not there is just enough evidence to award a mark in the higher band.

For example, when marking Question 3 you may find that a candidate uses a variety of relevant vocabulary but has varied success with more complex structures. In such cases, you will need to award a mark that takes into account both the strengths and weaknesses of the piece of work.

To select the most appropriate mark within each set of descriptors, use the following guidance:

- If most of the descriptors fit the piece (and after you have considered the band above), award the top mark in the band.
- If there is just enough evidence (and you had perhaps been considering the band below), award the lowest mark in the band.

Note on irrelevant material

In the case of a deliberately evasive answer which consists entirely of irrelevant material exploited in defiance of the rubric, a score of 0 is given. These are extremely rare. The genuine attempt to answer the question which fails due to a misunderstanding of the rubric will normally lose Communication marks but will score for Language. You should consult your Team Leader / Principal Examiner

When part of an answer is clearly irrelevant, highlight it and do not consider it when deciding on the Language mark. (e.g. Highlight and do not consider for Language an introduction to a question consisting of an unwanted self portrait or letter etiquette where a letter is not required.)
