## UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

International General Certificate of Secondary Education

## MARK SCHEME for the May/June 2006 question paper

## **0653 COMBINED SCIENCE**

0653/05

Paper 5, maximum raw mark 30

Www.strapapers.com

These mark schemes are published as an aid to teachers and students, to indicate the requirements of the examination. They show the basis on which Examiners were initially instructed to award marks. They do not indicate the details of the discussions that took place at an Examiners' meeting before marking began. Any substantial changes to the mark scheme that arose from these discussions will be recorded in the published *Report on the Examination*.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the *Report on the Examination*.

The minimum marks in these components needed for various grades were previously published with these mark schemes, but are now instead included in the Report on the Examination for this session.

• CIE will not enter into discussion or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the May/June 2006 question papers for most IGCSE and GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

	Page 1	Mark Scheme Syllabu   IGCSE – May/June 2006 0653	6
(a)	(i) conte	nts column of table completed clearly and correctly	Can
	Sho	ervations recorded clearly, corresponding with the supervisor's. uld show cloudy in tubes 1 and 3 clear in tube 2, brown iodine be 4 and blue/black in tubes 5 and 6	da Cambridg
(b)	(i) tube	s 2 and 4 only ONE each	[2
	(ii) peps	sin	[1
	(iii) the a	acid denatured the enzyme/prevented it from working/destroyed enzyme	[1
		ct as a control/to check that the substance would not be broken n unless the enzyme was present	[1
			[Total: 10
a)	measure	d values	[2
(b)	mass to	nearest gram	[1
(c)	calculati	on correct	[1
(d)	volume o	correct for figures	[1
(e)	balance point		[1
	distance		[1
	mass correctly calculated		[2
( <b>f</b> )	calculati	on correct	[1
			[Total: 10
a)	(i) mas	s recorded	[1
	(ii) leve	l of water	[1
	(iii) volu	me of gas same as level	[1
b)	limewate carbon c		[2
c)		ng on dioxide	[2
	(ii) pHa	about 7/8	[1
e)	dark gre pH abou	en/blue (not just green) t 10	[2
			[Total: 10
