In August 2016, the world's highest and longest glass bridge opened in Hunan province in China, over the Zhangjiajie Grand Canyon. Spanning 430 m across the 260 m drop below, the six-metre wide bridge was closed only two weeks after opening because of dangerous levels of demand. An official at a press conference said the bridge could safely hold 800 people at a time, however 100 times that number of visitors had been arriving each day since the opening, so timed access was introduced to overcome the issues in demand.

There are three types of tickets which allow you to see the bridge. Visitors are only allowed to enter in small groups and they are allocated a time when booking the ticket. Tickets may only be booked in advance online.

<b>Ticket Type</b>	<b>Cost</b>	<b>Duration of visit</b>
Ticket A (Canyon only)	118 yuan	3 hours
Ticket B (Canyon and glass bridge)	256 yuan	4 hours
Ticket C (Glass bridge only – entry after 4pm)	138 yuan	1 hour

Most visitors choose to purchase an integrated ticket that also includes the Grand Canyon, which offers the best value and allows access throughout the day.

GDS is a primary reservation tool for travel agents and is a platform that enables travel agencies and their customers to access travel data, compare reservation options and book travel services. Agents can access scheduling and inventory of hotels, airlines, car rentals, and some railway and bus reservations via GDS. Promotional messaging to agents through GDS alerts agents of special rates, fares, and travel packages and is an effective marketing tool for passing savings on to agents, and from agents to their customers. GDS is fundamental to the supply of travel products to online retailers.

Mariposa County is the home of Yosemite National Park, in the US, which is famed for its location in California's Sierra Nevada mountains. In Yosemite village there are shops, restaurants, lodging, the Yosemite Museum and an art gallery.

Glacier Point is a good starting or finishing point for some of Yosemite's most popular trails, including the Four Mile Trail and the Panorama Trail. The best time to visit is early spring or fall before the road closes for the winter season.

Activities at Glacier Point include: birdwatching, hiking, stargazing and (in the winter months) skiing and snowboarding at the Yosemite Ski and Snowboard centre. There are also camping grounds throughout the park.

Yosemite Mariposa County Tourism Bureau (YMCTB) is the official destination marketing organisation (DMO) for Mariposa County. Its function is to manage the branding, sales and marketing for the area to attract leisure and group overnight stays. The primary focus is to generate room sales during the off-peak season.

YMCTB is responsible for the creation and implementation of advertising campaigns and promotions including television, radio, social media, online, print and event support.
