MARK SCHEME

Maximum Mark: 90

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2016 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

© IGCSE is the registered trademark of Cambridge International Examinations.

This syllabus is approved for use in England, Wales and Northern Ireland as a Cambridge International Level 3 Pre-U Certificate.

This document consists of **5** printed pages.

Principles of marking:

- (a) full marks for each section should only be awarded if grammar and vocabulary are entirely correct
- (b) the number of marks awarded for each section reflects the length of the section and its (grammatical) difficulty
- (c) more specifically, examiners should check that verbs – tense, mood, voice and person (if appropriate); nouns and adjectives – case, number and gender are written or identified correctly; they should also check for the correct translations of comparatives and superlatives
- (d) where more than one mark is given to a word, some but not full marks should be awarded for what has been correctly identified (e.g. the tense but not the person)
- (e) style marks for the prose translation (question 1) are awarded (up to a total of 5) according to the style and fluency mark descriptors table
- (f) scansion marks in the unseen verse (question 2) are awarded as laid out below the unseen verse marks table.
