www.papaCambridge.com As part of CIE's continual commitment to maintaining best practice in assessment, CIE has begun to use different variants of some question papers for our most popular assessments with extremely large and widespread candidature, The question papers are closely related and the relationships between them have been thoroughly established using our assessment expertise. All versions of the paper give assessment of equal standard.

The content assessed by the examination papers and the type of questions are unchanged.

This change means that for this component there are now two variant Question Papers. Mark Schemes and Principal Examiner's Reports where previously there was only one. For any individual country, it is intended that only one variant is used. This document contains both variants which will give all Centres access to even more past examination material than is usually the case.

The diagram shows the relationship between the Question Papers, Mark Schemes and Principal Examiner's Reports.

# Www.PapaCambridge.com MARK SCHEME for the October/November 2008 question paper

# 0510 ENGLISH AS A SECOND LANGUAGE

0510/11

Paper 11 (Reading and Writing – Core), maximum raw mark 56

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2008 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Add the correct responses and halve them to give a score out of 6. Add this score to the marks awarded for the two sentences.

## SECTION C

Sentence One: it is anticipated the candidate will write a sentence about having visited Turkey recently. This should be in the first (not third) person.

Sentence Two: it is anticipated the candidate will write a sentence about requiring a room at the back of the hotel. This should be in the first (not third) person.

Direct lifting from the information is permissible (provided in first person). Allow anything relevant/appropriate.

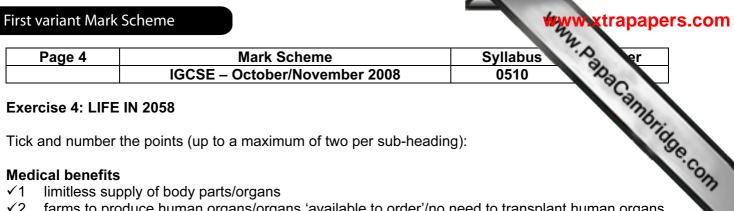

For each sentence, award up to 2 marks as follows:

**2 marks:** proper sentence construction; correct spelling and punctuation; gives the information asked for.

**1 mark:** proper sentence construction; 1–3 errors of punctuation and/or spelling (without obscuring the meaning); gives the information asked for.

**0 marks:** more than 3 errors of punctuation and/or spelling; and/or does not give the information asked for; and/or not a proper sentence; and/or meaning obscure.

## Exercise 4: LIFE IN 2058

Tick and number the points (up to a maximum of two per sub-heading):

## Medical benefits

- limitless supply of body parts/organs √1
- √2 farms to produce human organs/organs 'available to order'/no need to transplant human organs
- √3 re-grow lost limbs/regenerate failing organs
- √4 whole body replacement
- √5 humans live longer

## **Discoveries in space**

- √6 neighbours (OR life) in other galaxies (OR space)
- √7 how Earth was formed
- √8 whether the 'big bang' was one of many

## **Consequences of animal studies**

- $\checkmark$ 9 oceans saved from exploitation
- ✓10 humans give up eating meat/become vegetarian
- $\checkmark$ 11 (device) to experience the thoughts/feelings of animals

## [Exercise 4 total: 6]

## Exercise 5: SUMMARY – LIFE IN 2058

This exercise is marked for language, not content, but if content is entirely irrelevant to the task, a mark of zero should be awarded.

Count words and do not mark anything exceeding 70 words, as specified in the question. Candidates will not be assessed on anything they have written after this limit, but will not be penalised per se for exceeding it.

- 0 meaning obscure because of density of language errors; serious problems with expression; nothing of relevance.
- 1 expression weak: reliance on lifting from the passage.
- 2 expression limited; reliance on copying out of the notes; some sense of order.
- 3 expression good; attempts to group and sequence ideas in own words.
- expression very good; clear, orderly grouping and sequencing; largely in own words. 4

# **Exercise 7: MOBILE PHONES**

## **General guidance**

- Content covers relevance (i.e. whether the piece fulfils the task and the awareness of ٠ purpose/audience/register) and the *development of ideas* (i.e. the detail/explanation provided and how enjoyable it is to read).
- Language covers style (i.e. complexity of vocabulary and sentence structure) and accuracy • (of grammar, spelling, punctuation and use of paragraphs).
- When deciding on a mark for content or language, first of all decide which mark band is most • appropriate. There will not necessarily be an exact fit. You then have to decide between 2 marks within that mark band. Use the lower mark if it only just makes it into the band and the upper mark if it fulfils all the requirements of the band but doesn't quite make it into the band above.
- When deciding on a mark for content, look at both relevance and development of ideas. First ask yourself whether the writing fulfils the task, in terms of points to be covered and the length. If it does, it will be in the 4–5 mark band.
- When deciding on a mark for language, look at both the style and the accuracy of the . language. A useful starting point would be first to determine whether errors intrude. If they do not, it will be in the 4–5 mark band.
- The use of paragraphs should not be the primary basis of deciding which mark band the . work is in. Look first at the language used and once you have decided on the appropriate mark band, you can use the paragraphing as a factor in helping you to decide whether the work warrants the upper or lower mark in the mark band.
- If the essay is considerably less than the stated word length, it is unlikely that the candidate • will gain high content marks.
- If the essay is **totally irrelevant** and has nothing to do with the question asked, it should be • given 0 marks for content and language, even if it is enjoyable to read and fluent.
- If the essay is partly relevant and therefore in mark band 2-3, the full range of marks for • language is available.

Add the correct responses and halve them to give a score out of 6. Add this score to the marks awarded for the two sentences.

## SECTION C

Sentence One: it is anticipated the candidate will write a sentence about having visited Turkey recently. This should be in the first (not third) person.

Sentence Two: it is anticipated the candidate will write a sentence about requiring a room at the back of the hotel. This should be in the first (not third) person.

Direct lifting from the information is permissible (provided in first person). Allow anything relevant/appropriate.

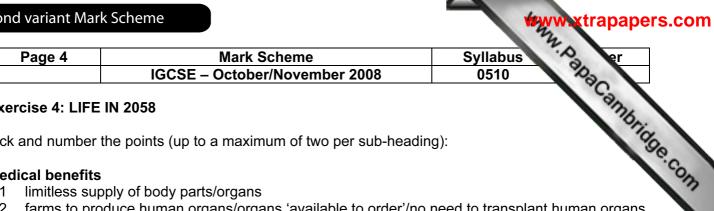

For each sentence, award up to 2 marks as follows:

2 marks: proper sentence construction; correct spelling and punctuation; gives the information asked for.

**1 mark:** proper sentence construction; 1–3 errors of punctuation and/or spelling (without obscuring the meaning); gives the information asked for.

**0 marks:** more than 3 errors of punctuation and/or spelling; and/or does not give the information asked for; and/or not a proper sentence; and/or meaning obscure.

## Exercise 4: LIFE IN 2058

Tick and number the points (up to a maximum of two per sub-heading):

## Medical benefits

- limitless supply of body parts/organs √1
- √2 farms to produce human organs/organs 'available to order'/no need to transplant human organs
- √3 re-grow lost limbs/regenerate failing organs
- √4 whole body replacement
- √5 humans live longer

## **Discoveries in space**

- √6 neighbours (OR life) in other galaxies (OR space)
- √7 how Earth was formed
- √8 whether the 'big bang' was one of many

## **Consequences of animal studies**

- $\checkmark$ 9 oceans saved from exploitation
- ✓10 humans give up eating meat/become vegetarian
- $\checkmark$ 11 (device) to experience the thoughts/feelings of animals

## Exercise 5: SUMMARY – LIFE IN 2058

This exercise is marked for language, not content, but if content is entirely irrelevant to the task, a mark of zero should be awarded.

Count words and do not mark anything exceeding 70 words, as specified in the question. Candidates will not be assessed on anything they have written after this limit, but will not be penalised per se for exceeding it.

- 0 meaning obscure because of density of language errors; serious problems with expression; nothing of relevance.
- 1 expression weak; reliance on lifting from the passage.
- 2 expression limited; reliance on copying out of the notes; some sense of order.
- 3 expression good; attempts to group and sequence ideas in own words.
- expression very good; clear, orderly grouping and sequencing; largely in own words. 4

## Exercise 6: SCHOOL EXCHANGE VISIT **Exercise 7: DANGEROUS SPORTS/ACTIVITIES**

## **General guidance**

- Cambridge.com Content covers relevance (i.e. whether the piece fulfils the task and the awareness of ٠ purpose/audience/register) and the *development of ideas* (i.e. the detail/explanation provided and how enjoyable it is to read).
- Language covers style (i.e. complexity of vocabulary and sentence structure) and accuracy • (of grammar, spelling, punctuation and use of paragraphs).
- When deciding on a mark for content or language, first of all decide which mark band is most • appropriate. There will not necessarily be an exact fit. You then have to decide between 2 marks within that mark band. Use the lower mark if it only just makes it into the band and the upper mark if it fulfils all the requirements of the band but doesn't quite make it into the band above.
- When deciding on a mark for content, look at both relevance and development of ideas. First ask yourself whether the writing fulfils the task, in terms of points to be covered and the length. If it does, it will be in the 4–5 mark band.
- When deciding on a mark for language, look at both the style and the accuracy of the . language. A useful starting point would be first to determine whether errors intrude. If they do not, it will be in the 4–5 mark band.
- The use of paragraphs should not be the primary basis of deciding which mark band the . work is in. Look first at the language used and once you have decided on the appropriate mark band, you can use the paragraphing as a factor in helping you to decide whether the work warrants the upper or lower mark in the mark band.
- If the essay is considerably less than the stated word length, it is unlikely that the candidate • will gain high content marks.
- If the essay is **totally irrelevant** and has nothing to do with the question asked, it should be • given 0 marks for content and language, even if it is enjoyable to read and fluent.
- If the essay is partly relevant and therefore in mark band 2-3, the full range of marks for • language is available.

## GENERAL CRITERIA FOR MARKING EXERCISES 6 and 7 (CORE TIER)

| Mark<br>band | CONTENT:<br>relevance and development of ideas   | Mark<br>band | LANGUAGE:<br>style and accuracy   |
|--------------|--|--------------|---|
| 4–5          | Satisfactory:  | 4–5          | Safe:   |
|              | <ul> <li><i>Relevance:</i> Fulfils the task, with reasonable attempt at appropriate register, and some sense of purpose and audience. A satisfactory attempt has been made to address the topic, but there may be digressions.</li> <li><i>Development of ideas:</i> Material is satisfactorily developed at appropriate length.</li> </ul>  |              | <ul> <li>Style: Mainly simple structures and vocabulary, sometimes attempting more sophisticated language.</li> <li>Accuracy: Meaning is clear, and work is of a safe, literate standard. Simple structures are generally sound, apart from infrequent spelling errors, which do not interfere with communication. Grammatical errors occur when more sophistication is attempted. Paragraphs are used but without coherence or unity.</li> </ul>           |
| 2–3          | Partly relevant:   | 2–3          | Errors intrude:   |
|              | <ul> <li><i>Relevance:</i> Partly relevant and some engagement with the task. Does not quite fulfil the task, although there are some positive qualities. Inappropriate register, showing insufficient awareness of purpose and/or audience.</li> <li><i>Development of ideas:</i> Supplies some detail and explanation, but the effect is incomplete. Some repetition.</li> </ul> |              | <ul> <li>Style: Simple structures and vocabulary.</li> <li>Accuracy: Meaning is sometimes in doubt.
